Problem Report (PRR) process.....	5
Change Request (CR) process.....	15
Change Notice (CN) process.....	32

Introduction

- In the organization, user from any department can raise problem report on the FG Parts (Finished Good/SKUs).
- Below image is showing the **Details** page of the part no: 480108 which is an End Item/FG. Which can be

identified by this icon 

Actions FG_CP - 480108, Bajaj TMH35, 01.1 (Design) Production Release

Details Structure Related Objects Changes History Where Used AML/AVL FG Code Vendor Details

Visualization and Attributes | More Attributes

Visualization and Attributes

Name: Bajaj TMH35
Status: Checked in
Modified By: Deepak Mumbalkar
Last Modified: 15/12/2023 12:40 IST

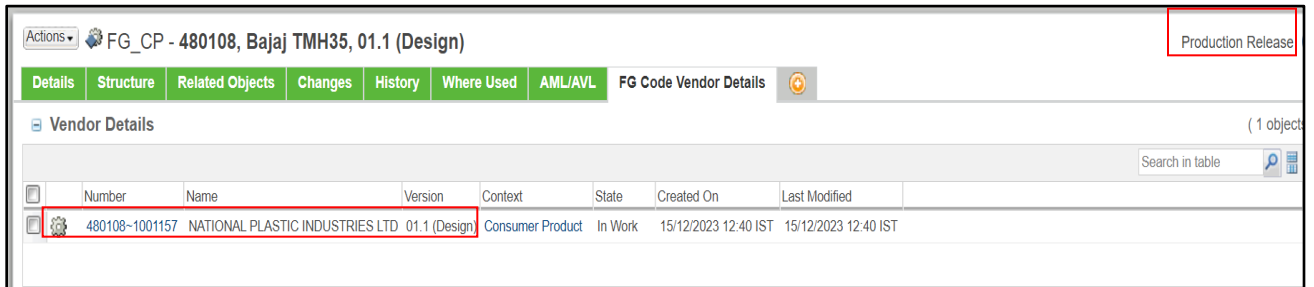

General

Assembly Mode: Separable End Item: Yes
Source: Make Default Unit: each
Gathering Part: No Default Trace Code: Untraced
Phantom: No
Manufacturing Part: Type: FG_CP

Activate Windows
Go to Settings to activate Windows.

Pre- requisitesto raise PRR on FG CP:

- The part must be in **Production Release** state. See upper right corner of the below image.
- Also click on the **FG Code Vendor Details** tab to see that, whether FG part associated with Vendor code or not.

Actions FG_CP - 480108, Bajaj TMH35, 01.1 (Design) Production Release

Details Structure Related Objects Changes History Where Used AML/AVL FG Code Vendor Details

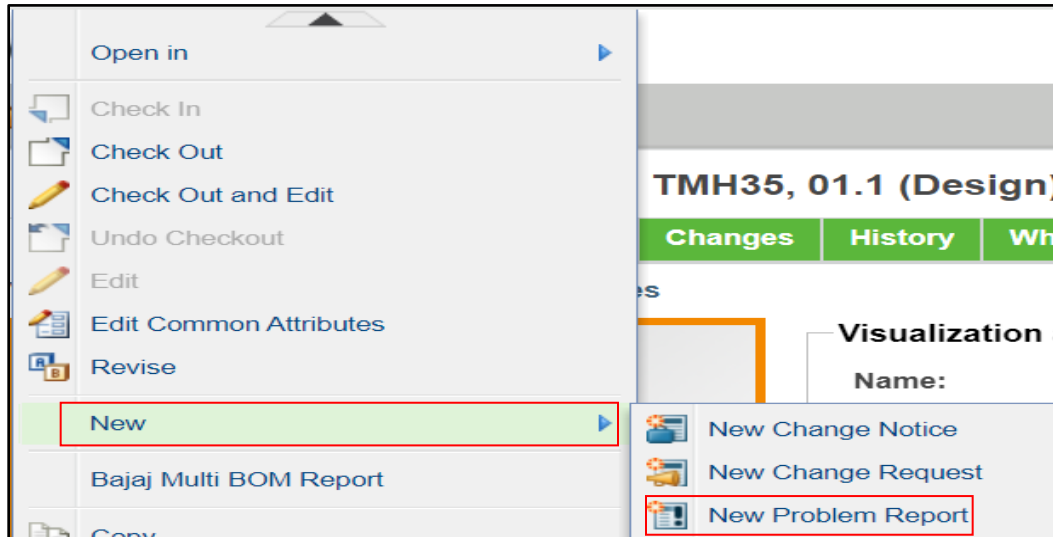

Vendor Details (1 object)

	Number	Name	Version	Context	State	Created On	Last Modified
	480108-1001157	NATIONAL PLASTIC INDUSTRIES LTD	01.1 (Design)	Consumer Product	In Work	15/12/2023 12:40 IST	15/12/2023 12:40 IST

Search in table

PRR Process

- Go to **Actions** button which is at upper left corner. Refer image on previous page.
- Then select the **New→New Problem Report**.

Then **New Problem Report** window will open, which has total five wizards.

- 1) First wizard is **Set Attributes**: Here, user has to provide valid inputs to the attributes (like PRR Name, Priority, etc.)
 - ' * 'Marked attributes are mandatory.
 - User cannot move to next wizard until he/she provides valid inputs to the mandatory attribute.

A screenshot of the 'New Problem Report' window. The window has a title bar 'New Problem Report' and a progress bar with five steps: 'Set Attributes', 'Select Affected End Items', 'Select Affected Objects', 'Set Attachments', and 'Select Associations'. The 'Set Attributes' step is currently active. The form contains the following fields:

- Product:** Consumer Product
- *Type:** Proposal Review Request
- Attributes:**
 - PRR Number:** (Generated)
 - *PRR Name:** test PRR0011
 - *Priority:** Low
 - *Description of Design Change Proposed:** test

A rich text editor toolbar is visible above the description field. At the bottom, there are navigation buttons: 'Back', 'Go to', 'Set', 'Next to', 'Act', 'Finish', 'Win', 'Joy', 'Cancel'. A watermark 'Activate Windows' is visible in the bottom right corner.

- 2) Please select the required PRR request department from drop-down.(eg: here Design & Development selected)

- 3) Depending upon the selection of Business Unit the Division changes & depending upon the selection of Division the Product category changes.
- 4) Depending upon the selection of PRR variety , the PRR variety sub-type changes.

* PRR Request Department: Design & Development

Customer Name: test

* Business Unit: Consumer Products (CP)

* Division 1: DAP

* Product Category 1: Personal Coolers

Division 2:

Product Category 2:

Division All:

Product Category All:

* PRR Variety: QI - Quality Improvement

* PRR Variety Sub Type: Customer Complaints

Design Change Required Date: dd/MM/yyyy

* Expected results if design Change is Carried: test

Indicates required fields.

Back Go to Set Next to Finish/Win/Cancel

- Then click on the **Next** button.

5. Second wizard is **Select Affected End Item:**

- This tab is just for information. This shows an End item on which user is raising the PRR.

New Problem Report

Set Attributes Select Affected End Items Select Affected Objects Set Attachments Select Associations

Affected End Items (1 objects)

Number	Name	Context	Comments
480108	Bajaj TMH35	Consumer Product	

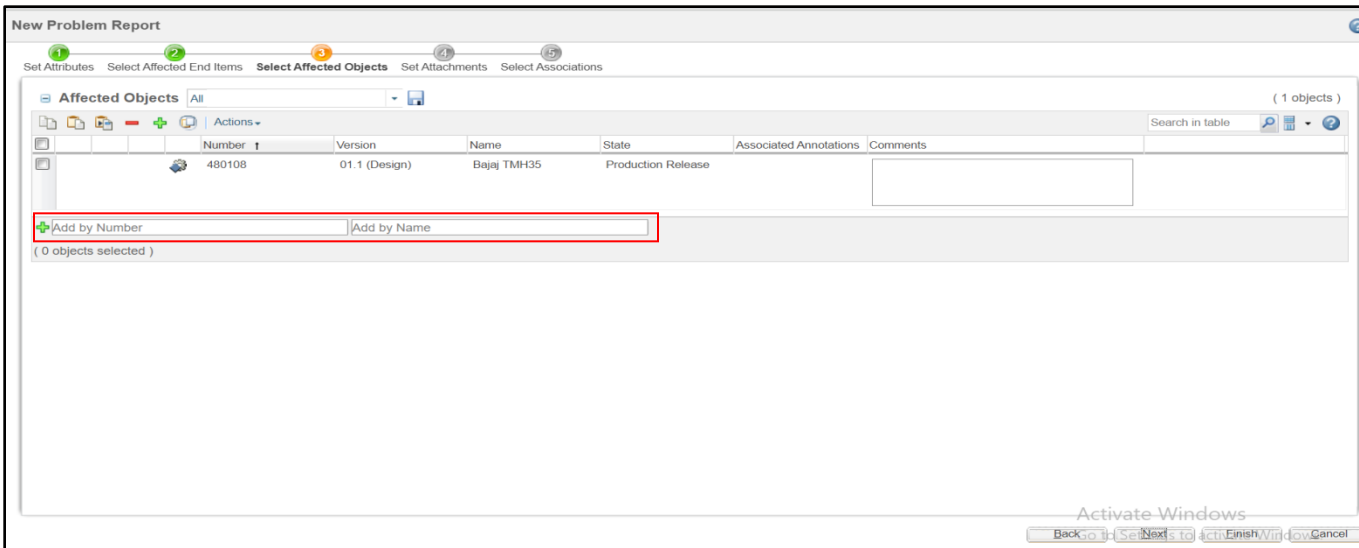

Add by Number Add by Name

(0 objects selected)

Back Go to Set Next to Finish/Win/Cancel

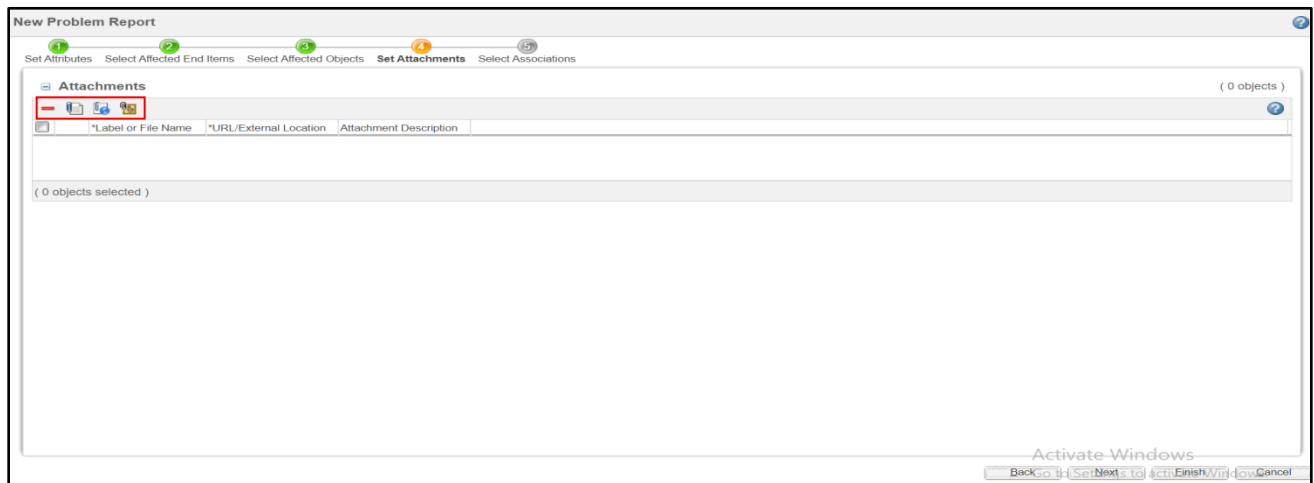

6. Third wizard is **Select Affected Objects.**

- Here you can see the primarily selected Object (SKU), if you want to add more objects which are affected then you can add here.
- For that, user has to search it in the highlighted boxes by the **Number** or the **Name**.
- To remove an object from the table, user has to click in the check box which is before the object and then click on the **-** icon.
- User can add comment for the specific object in the comment box.

7. Fourth wizard is **Set Attachments**:

- The **-** icon is to remove attachments from the table.
- The second icon i.e. right to the **-** icon is **Set local attachments**: by clicking on this icon, user can add any attachments from the local storage/machine.
- The third icon is **Attach new URL link**: here user has to provide URL label and URL because these are mandatory attributes.
- If user doesn't want to attach any attachment then, user can skip this wizard just by clicking on the **Next** button.

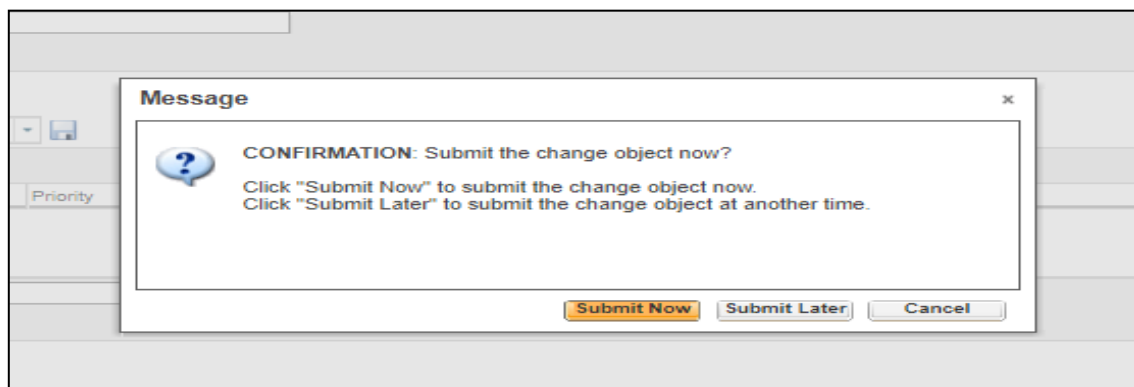

8. The Fifth and last wizard for PRR creation is **Select Association**:

- This tab is just for information. This shows Associated **Process** Objects and Associated **Reference** Objects if any.
- User has to click on the **Finish** button to submit the Problem Report.

At the last of the PRR creation, the pop up appears to confirm the submission of PRR.

- There are three buttons
 - a) Submit Now: to submit PRR immediately.
 - b) Submit Later: to save PRR as a draft.
 - c) Cancel: to cancel generation of PRR.

- PRR created successfully pop-up appears.
- User can see the generated PRR in the **Changes** tab of the part FG_CP – 420109.
- The generated PRR number is PRR-CP-000221. Click on it or on the 'i' Icon to view The PRR tabs.

- In below image user can see the **Details** tab in which user can also see all attribute values that has provided by the PRR creator/owner.
- The PRR is in **Under Review** state. See upper right corner of the image.

Process: BEL_Problem Report Workflow_PRR-CP-000221-test PRR0011

Process Initiator: Site, Administrator

Process Initiated On: 06/03/2024 12:12 IST

Assignee: Vinayakrao Raje

Role: LCM Process Incharge_CP

Priority: Highest

Deadline:

Status: Potential

Inputs

Comments:

Activate Windows
Go to Settings to activate Windows.

Here you have four **Routing Options**

- **Proceed for CFT Review:** If LCM Process Incharge wants to take the CFT review on the PRR, select this option. Here Participants need to be set-up using Set-up Participants tab for Marketing Incharge , QA Incharge & SCM Incharge.
- **Proceed without CFT Review:** If LCM Process Incharge feels CFT review on PRR is not required, will go with this option and the next task will go to LCM Engineer for ECR creation (In this case, the LCM Incharge will add a participant in LCM Engineer role in Set-up Participant Tab).
- **Rework:** If you select this option then task will go back to the originator of the PRR.
- **Not Recommended:** If LCM Process Incharge finds the change is not required, they can select this option. The flow for PRR ends completely.

Task - BEL_Problem Report Workflow_PRR-CP-000221-LCM Filter Under Review

Details **Related** **Set Up Participants**

Routing Options:

☒ Proceed for CFT Review

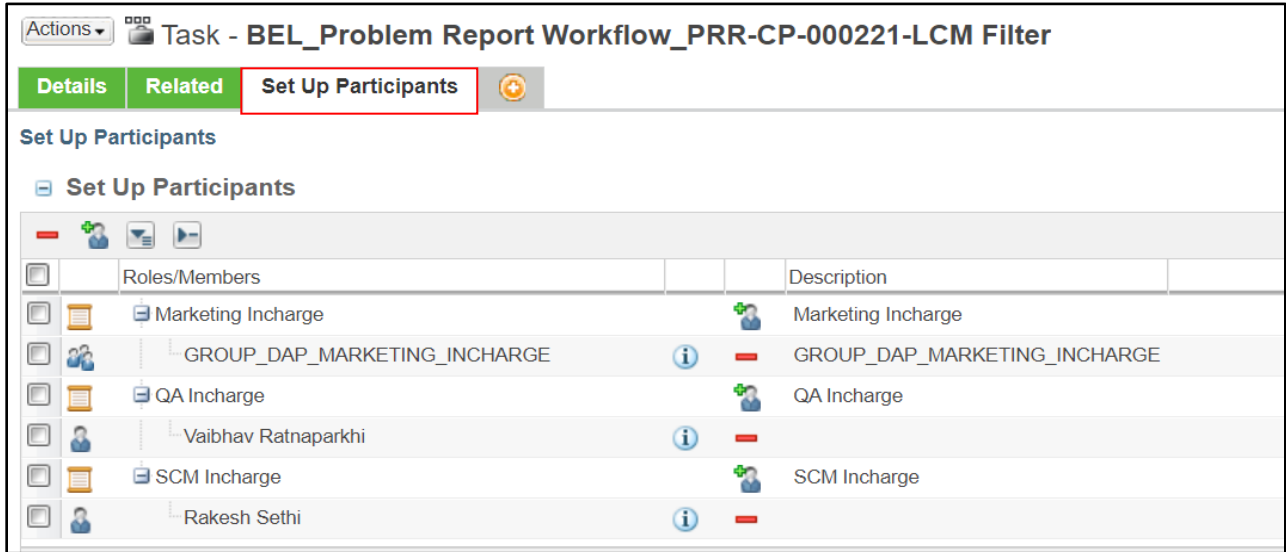

☐ Proceed without CFT Review

☐ Rework

☐ Not Recommended

Activate Windows

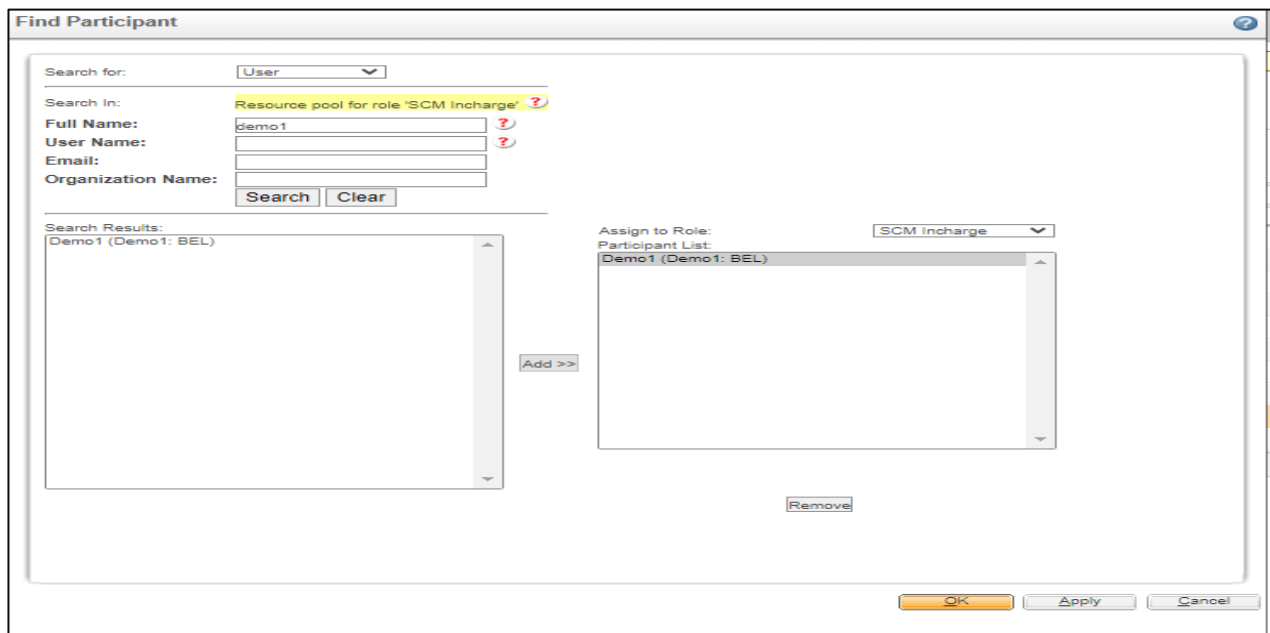

- Now here Proceed with CFT Review routing is selected. Click on the **Set Up Participants** tab. To add any user for particular role click on 

Roles/Members	Description
Marketing Incharge	Marketing Incharge
GROUP_DAP_MARKETING_INCHARGE	GROUP_DAP_MARKETING_INCHARGE
QA Incharge	QA Incharge
Vaibhav Ratnaparkhi	
SCM Incharge	SCM Incharge
Rakesh Sethi	

- Then search window will get open. Add participant as shown in below figure. (Apart from the default Users assigned in each role other User can also be added if required.)
- Search user by its full name or user name or by Email or by the organization name.
- Then click on **Search** button. You will see the search results in the left search table. Then click on the user in search table and then click on the '**Add>>**' button to assign for the role. Then click on **OK**.
- To remove the user from the **Assigned to Role** table, click on the user and then click on the **Remove** button.

You can see the highlighted region which specifies that, you can search user/s only for the role QAIncharge. (for example).

Search for:

Search In: **Resource pool for role 'SCM Incharge'**

Full Name:

User Name:

Email:

Organization Name:

Search Results:

- Demo1 (Demo1: BEL)

Assign to Role:

Participant List:

- Demo1 (Demo1: BEL)

- Then click on the **Details** tab to complete this task.
- If you have any comment for this task you can put it in the comment box.
- Then click on the button **Complete Task** to submit the task.

New Change Request

New Review

Affected Objects

- The following ECR creation window opens:
You can click the Propagate information check-box so that details flow from PRR.(You can even change the attributes information if required).

New Change Request

Set Attributes Select Affected End Items Select Affected Objects Set Attachments Select Associations

Product: Consumer Product

* Type: Production ECR

☒ Propagate information

Attributes

ECR Number: (Generated)

* ECR Name: test PRR0011

* Request Priority: Low

* Description of Design Change Proposed:

test

- Select the Validation Required whether Yes/No from drop-down.
Select the Samples Required whether Yes/No from drop-down.
Select the Scope of Change whether Major/Minor/Significant from drop-down.
Once done with the selection click on Next.

The screenshot shows a form titled 'New Change Request' with the following fields and values:

- * ECR Request Department: Design & Development
- Customer Name: test
- * Business Unit: Consumer Products (CP)
- * Division 1: DAP
- * Product Category 1: Personal Coolers
- Division 2: (empty)
- Product Category 2: (empty)
- Division All: (empty)
- Product Category All: (empty)
- * PRR Variety: QI - Quality Improvement
- PRR Variety Sub Type: Customer Complaints
- * Expected results if design Change is Carried: test
- Design Change Required Date: (empty)
- * Validation Required?: Yes
- * Samples Required?: Yes
- * Scope of Change: Minor

At the bottom right, the 'Next' button is highlighted with a red box. Other buttons include 'Back', 'Finish', and 'Cancel'.

All the other tabs are similar to that of PRR.

- Only the Select Association tab will have the reference of the PRR as shown in below image.
As this ECR is created in continuation of the PRR raised.
Once done click on Finish & complete the Create ECR task.

The screenshot shows the 'New Change Request' form with the 'Select Associations' tab selected. The 'Associated Process Objects' table is highlighted with a red box and contains the following data:

Identity	Name	Category	Priority	State	Need Date	Complexity	Context	Comments
PRR-CP-000221	test PRR0011		Low	Under Review			Consumer Product	

Below the table, there are sections for 'Associated Reference Objects' and 'Add by Number' / 'Add by Name' buttons. At the bottom right, the 'Finish' button is highlighted with a red box. Other buttons include 'Back', 'Next', and 'Cancel'.
