Undo Reservation activity process.....6

Change Task Deletion Process

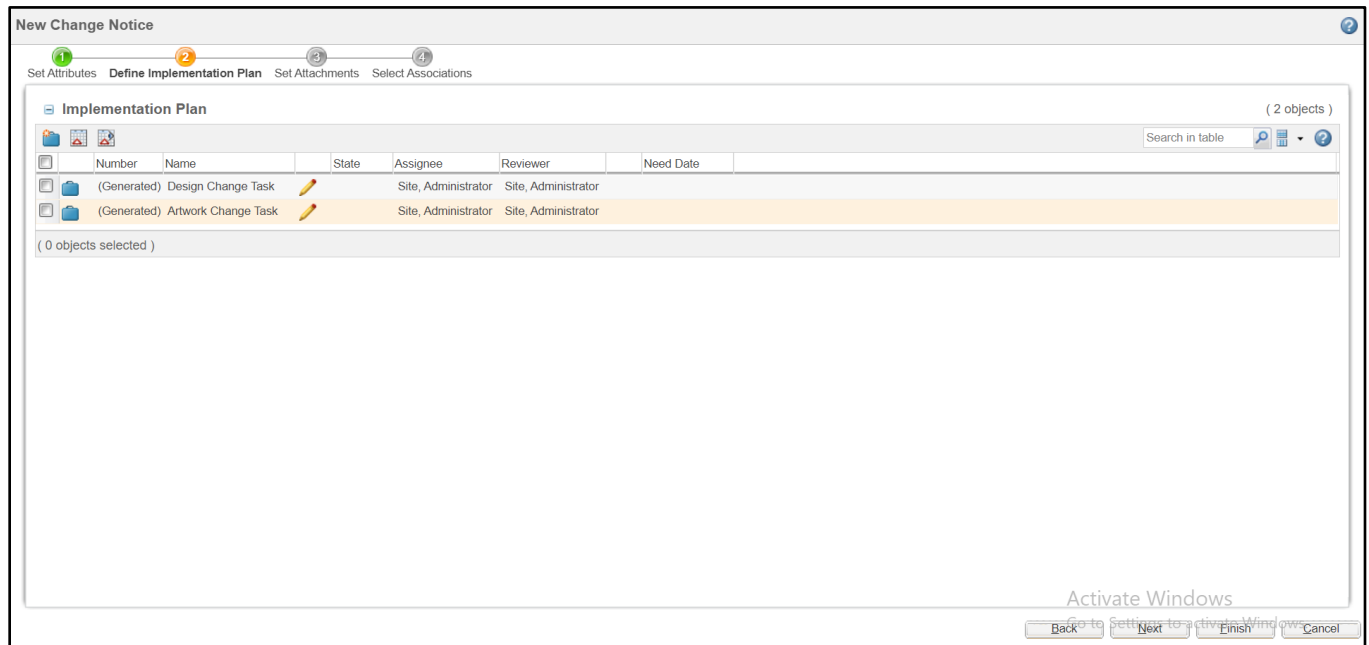

- While creation of new Change Notice , the User can Delete Change Task in the Implementation tab.
(eg :here Packaging Change task is to be Deleted)
Select the Packaging Change Task , right click on the task & click on Delete as highlighted.

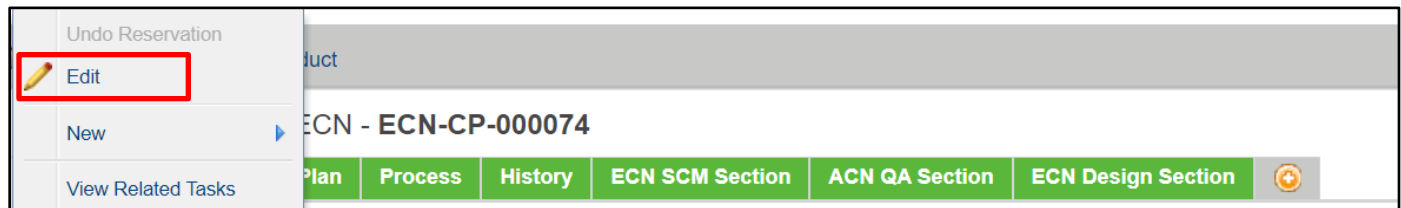

- Once clicked on Delete , the following confirmation dialog box will appear.
Click on OK.

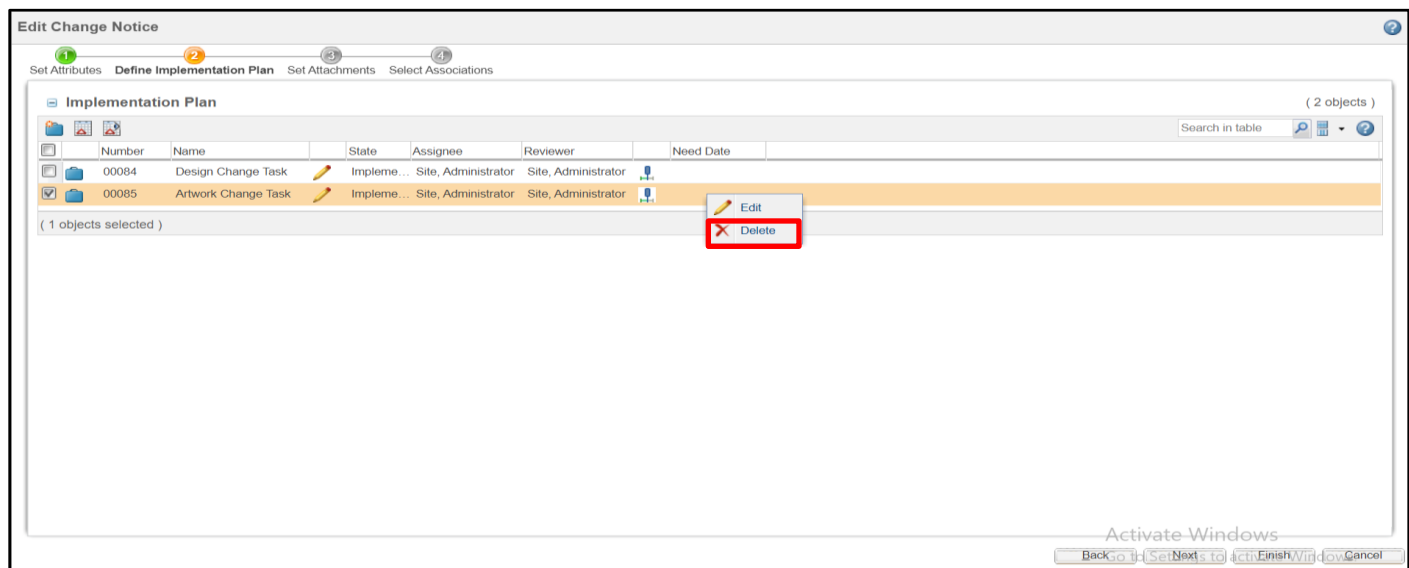

- The Change task gets Deleted , as seen in below image.

- The User can even Delete a Change Task , after the Change Notice creation.
Open the created Change Notice , Go to **Actions-> Edit**

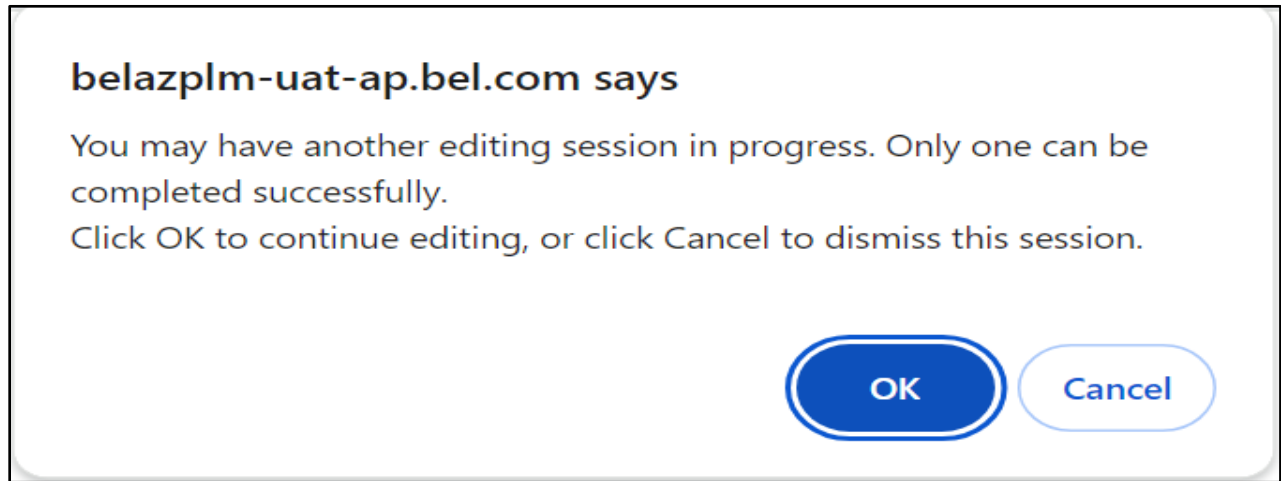

- The following window opens.

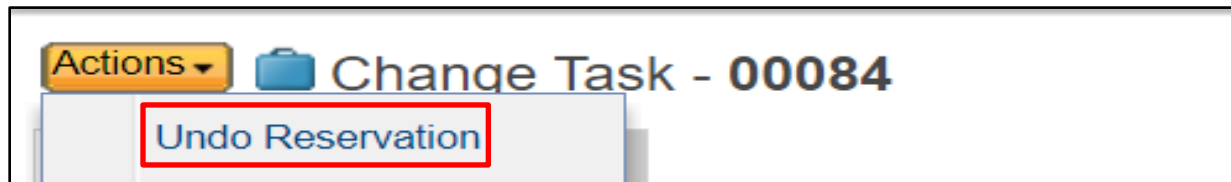

- The same process as above ,is to be applied for Change Task deletion.

Undo Reservation for Change Activity process

- If a User is already working on a Change Task , & another User is trying to access the same Change Task , the following pop-up is given.

- In such case , the User needs to perform the **Undo Reservation** for the Change Task. For this open the Change Task , Go to **Actions-> Undo Reservation**.

Once Undo Reservation action is performed , the User can proceed with Change Task edit.
