Folder Navigation for WTParts and Documents. 3

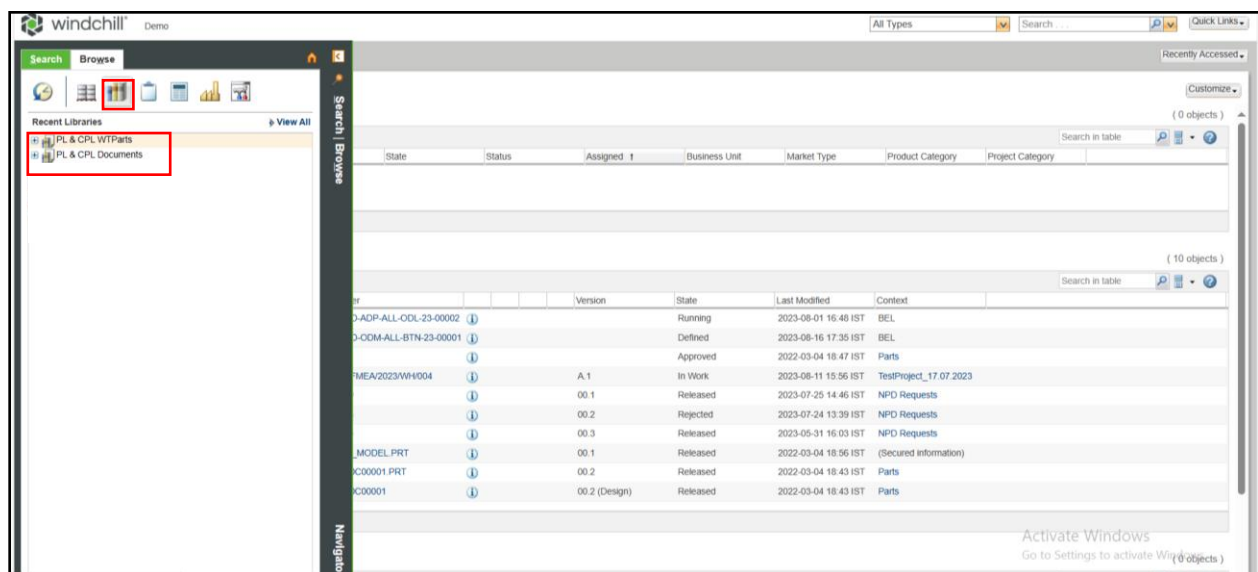

Folder Navigation for CAD Parts. 7

Folder Navigation for WTParts and Documents

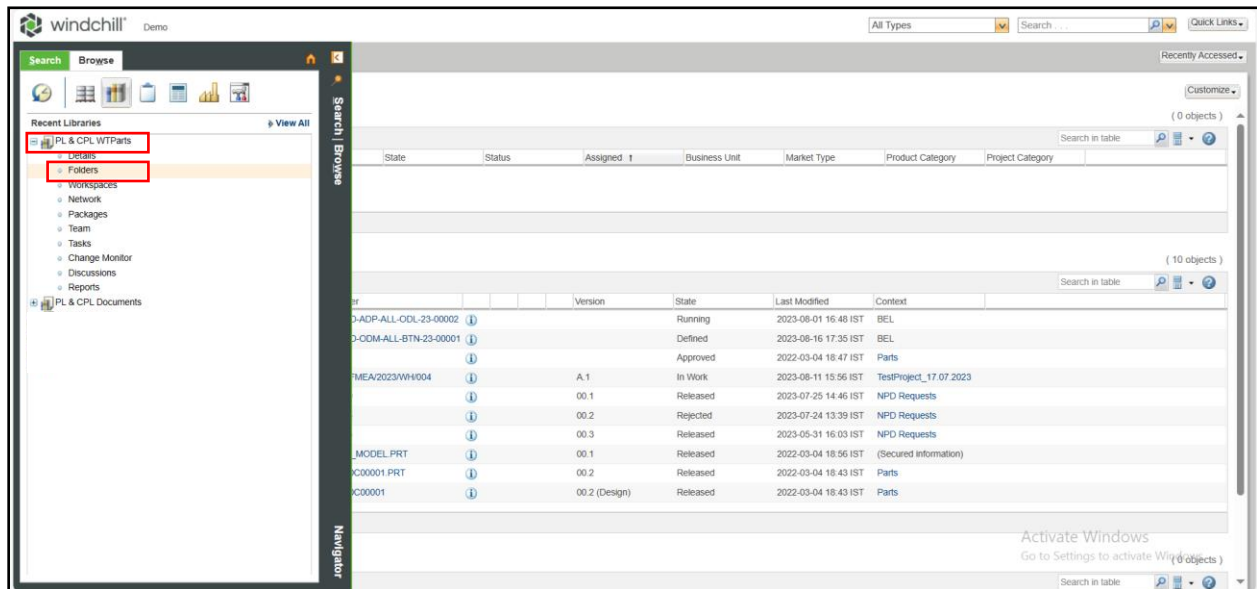

- Home Page will open when user login with their Windchill credentials.
- Here we are using demo user id (as Illum Team Member) as an example.

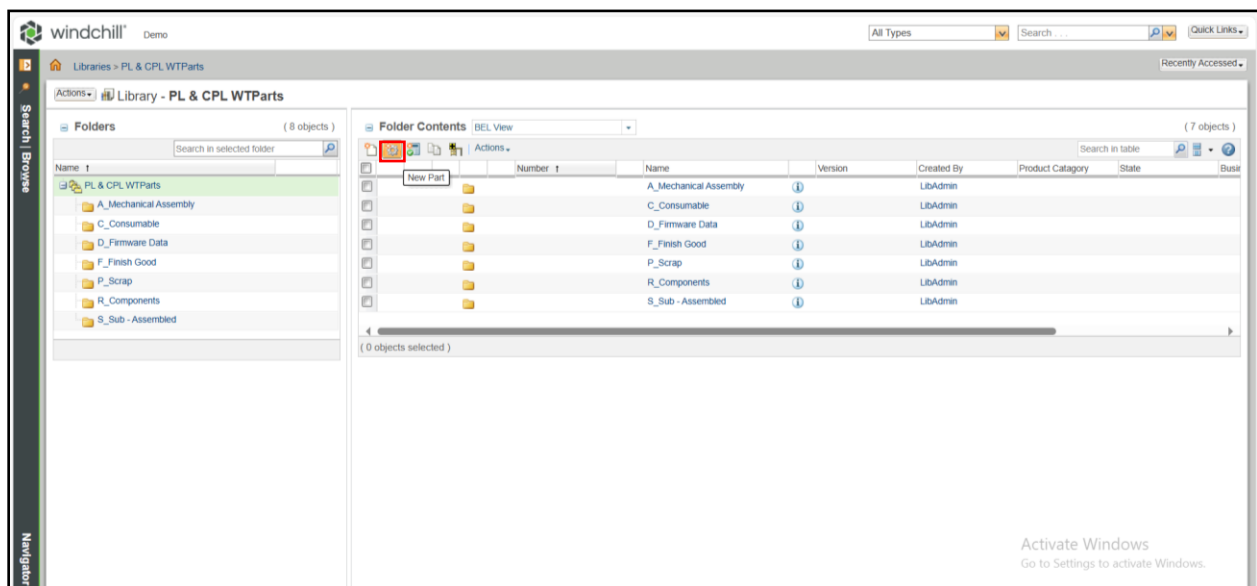

- Then expand the Navigator panel and click on Browser, then go to Library Context.
- In library user will have their respective libraries for documents (**PL & CPL Documents**) and WTParts (**PL & CPL WTParts**).

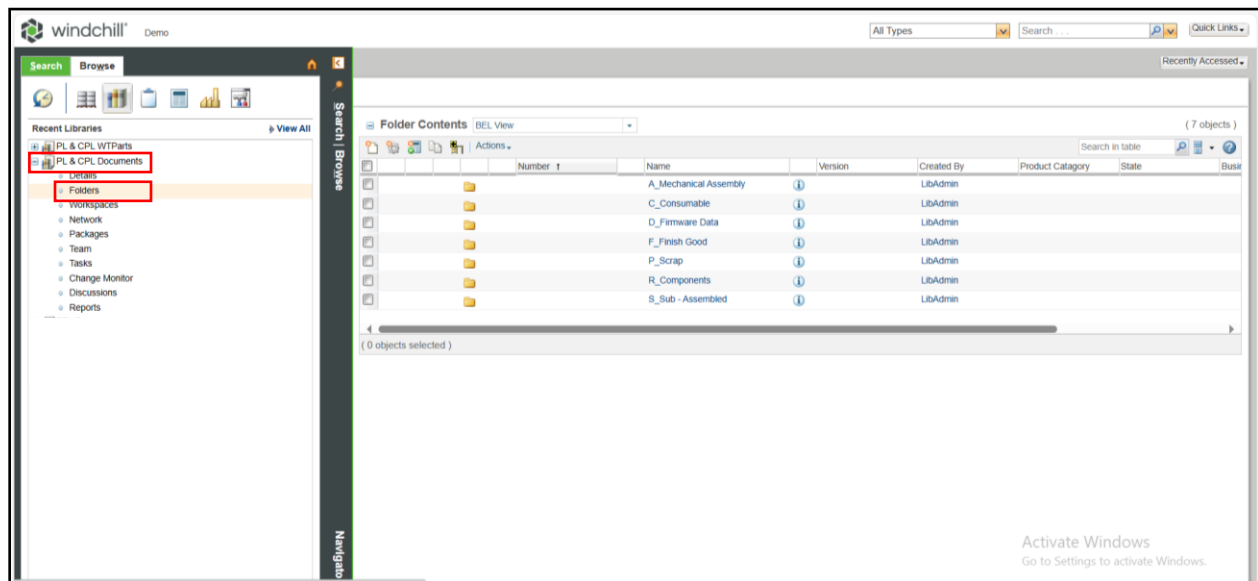

- For WTParts expand the navigator panel then go to Browser and select the WTParts library.
- To open the folders, expand the Context and click on Folders as shown below.

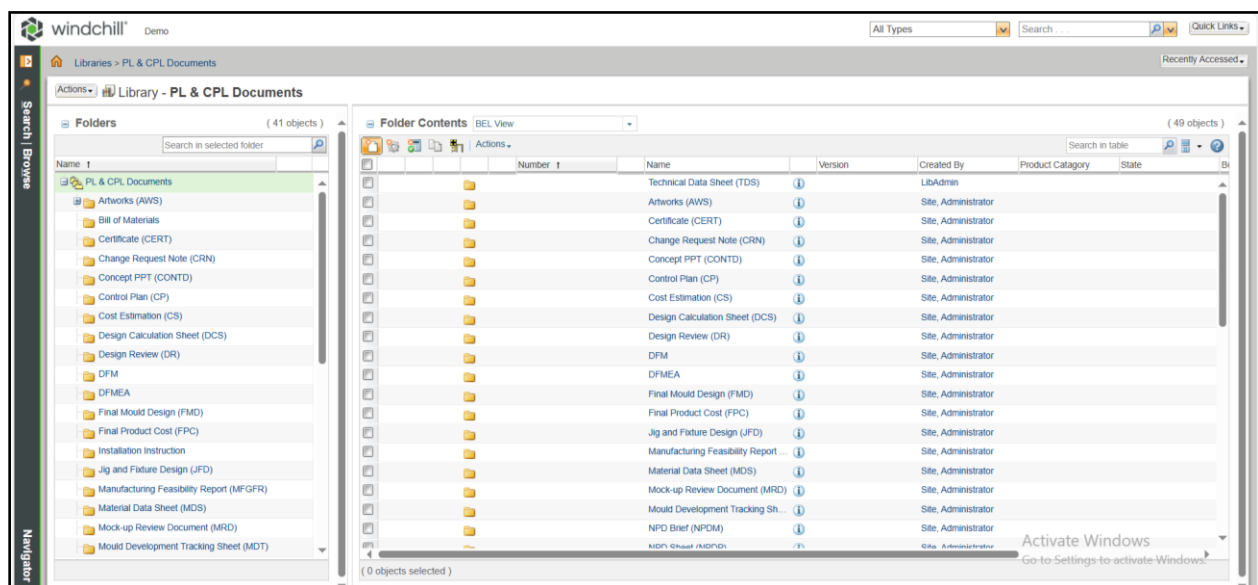

- User will create new WTParts using New Part action shown below.
- Folders are created based on the first letter of the Illum Part Numbers.
- When user create the new part, it will get stored to the folder location based on their first letter from the Number.

- For Documents open the Documents Library and click on Folders.

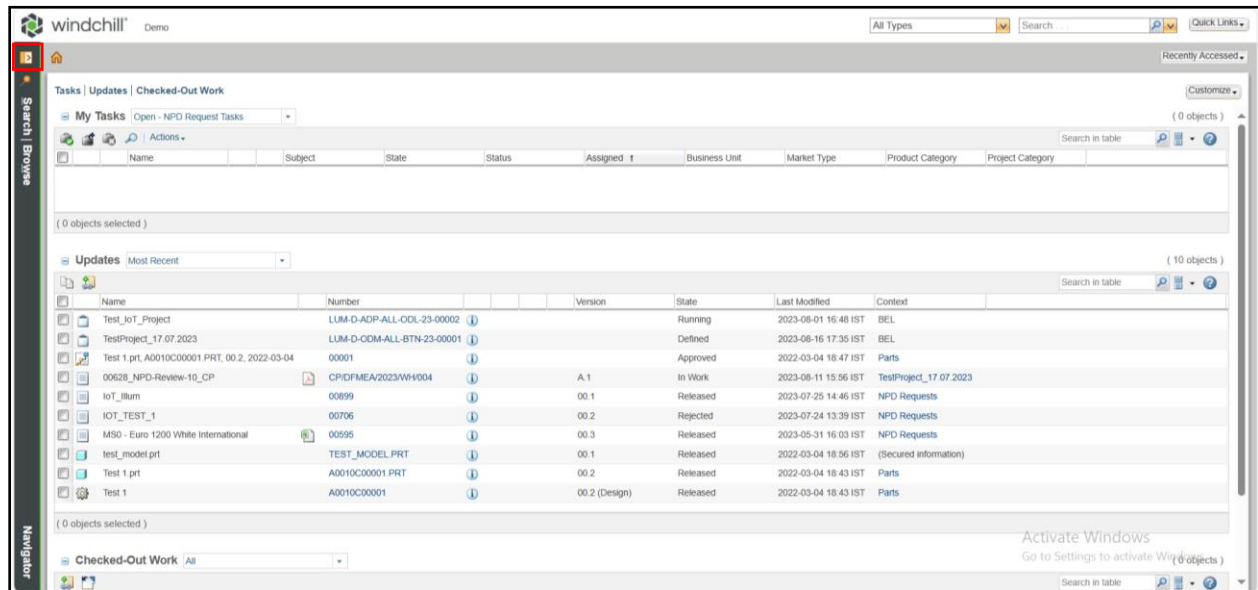

- In Folders user can find different folders based on the Document Types.
- When user creates the new document, it will get stored to its folder location based on its document type.

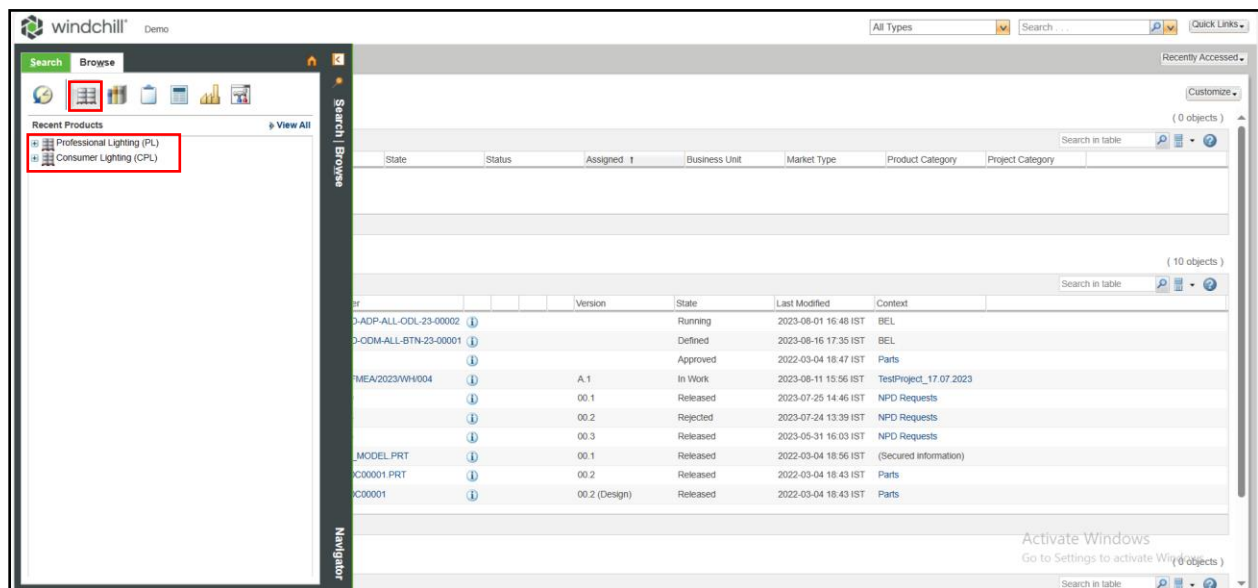

Folder Navigation for CAD Parts.

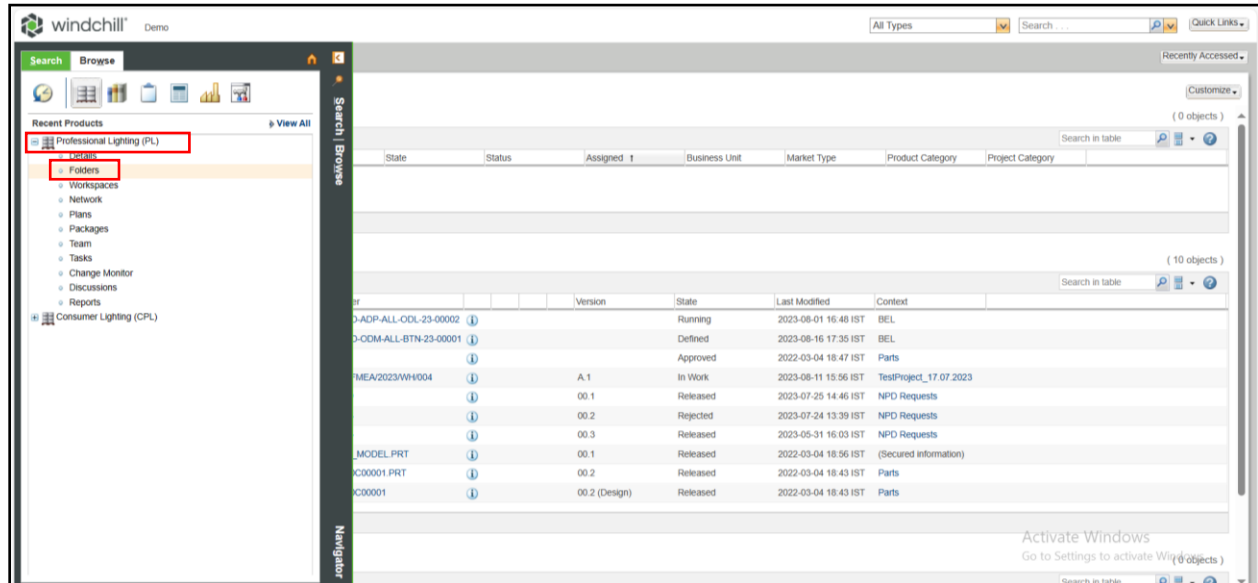

- Windchill Home Page open after windchill login and then expands the Navigator Panel.

- For CAD Part user will go to Product Context.
- User will have the Product contexts based on their roles.

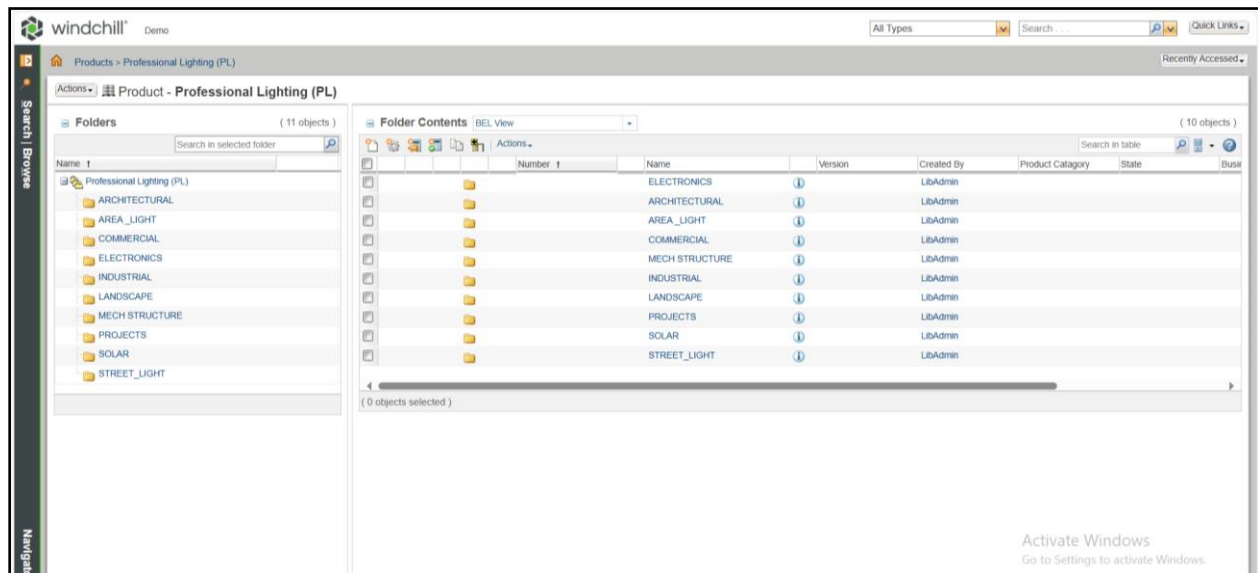

- To check folder data, expand the product and click on Folders.

This screenshot shows the Windchill interface. On the left, the 'Recent Products' list includes 'Professional Lighting (PL)' and 'Consumer Lighting (CL)'. The 'Professional Lighting (PL)' product is expanded, and the 'Folders' sub-item is highlighted with a red box. The main area displays a table of data for the selected product.

State	Status	Assigned	Business Unit	Market Type	Product Category	Project Category
