New WTPart Creation

- Create the WTParts to generate the Part Number and to associate it with the CAD Parts.
- Go to Library folders in which user has the access and click on this  icon to create the New WTPart.

- Select the appropriate Part type for the WTPart creation.

- Then fill all the required attribute values. Asterisk (*) marked attributes are mandatory attributes without filling these attributes WTPart will not be get created.
- **Note: - Please fill the Base Code value after filling all the values.**

New Part

- User will get the notification for successful creation of WTPart as shown below.
- The WTPart will get added to the folder, based on their Base Code Value.
- **Note: - Folders are created in the Library Context as per the Base Code value.**

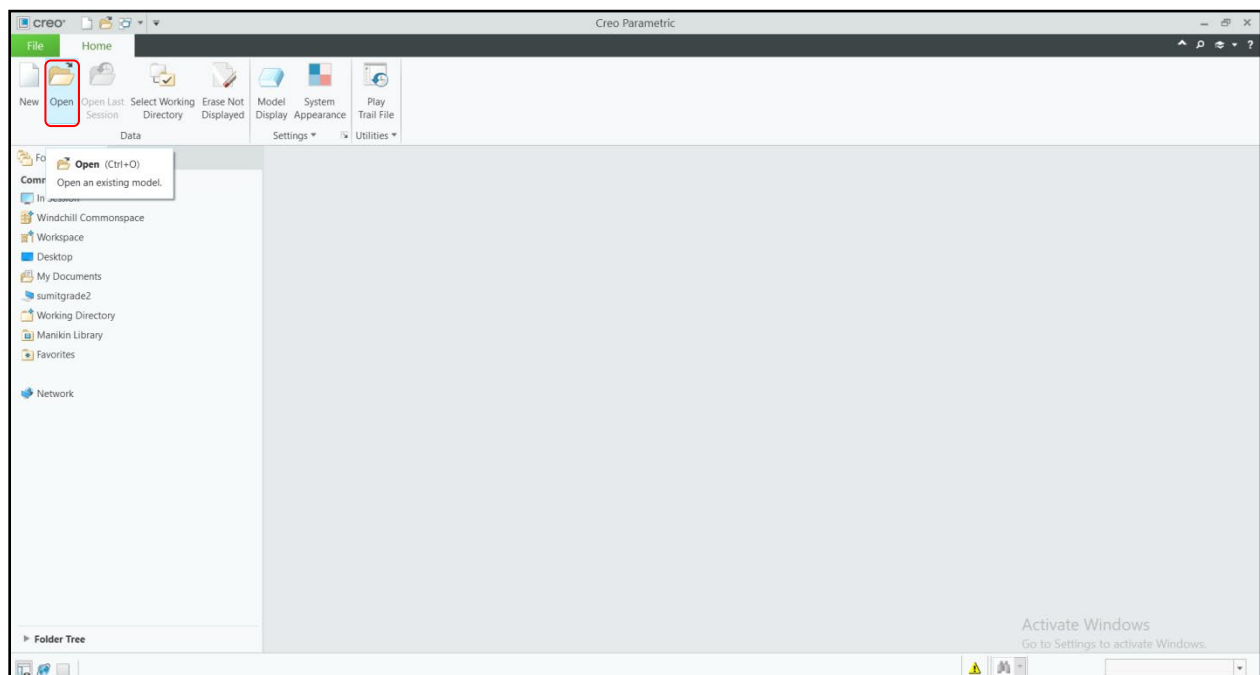

- To see the details of WTPart, user can view If user opens this WTPart he will get all the details of it in Details Tab.

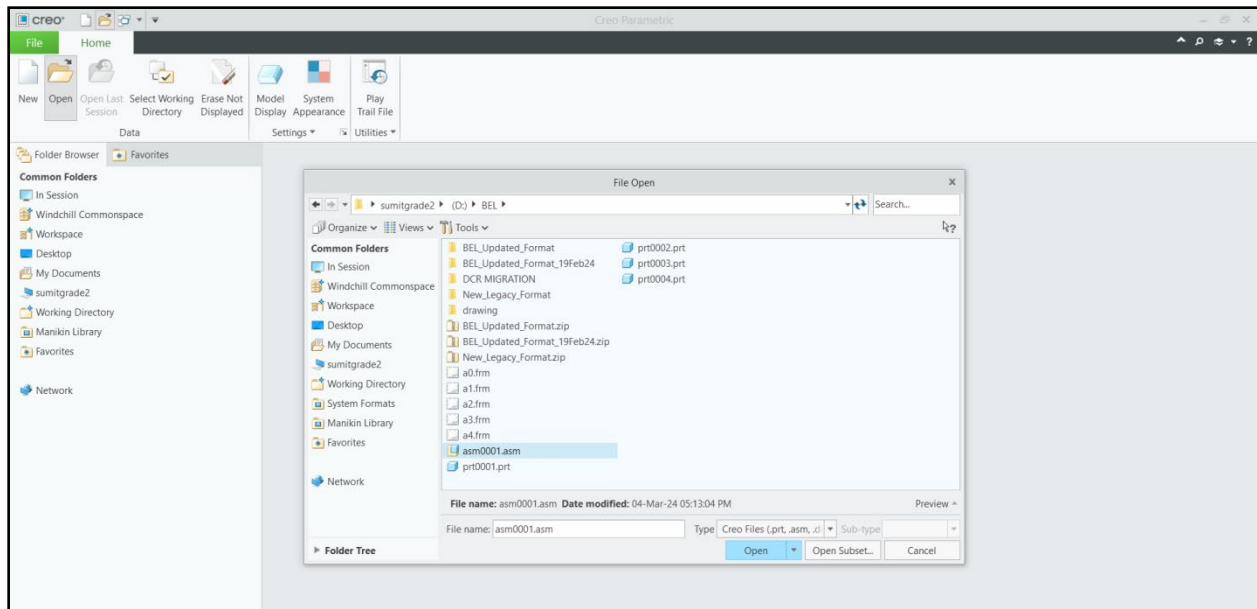

CAD Part Association and Check-in to Windchill:-

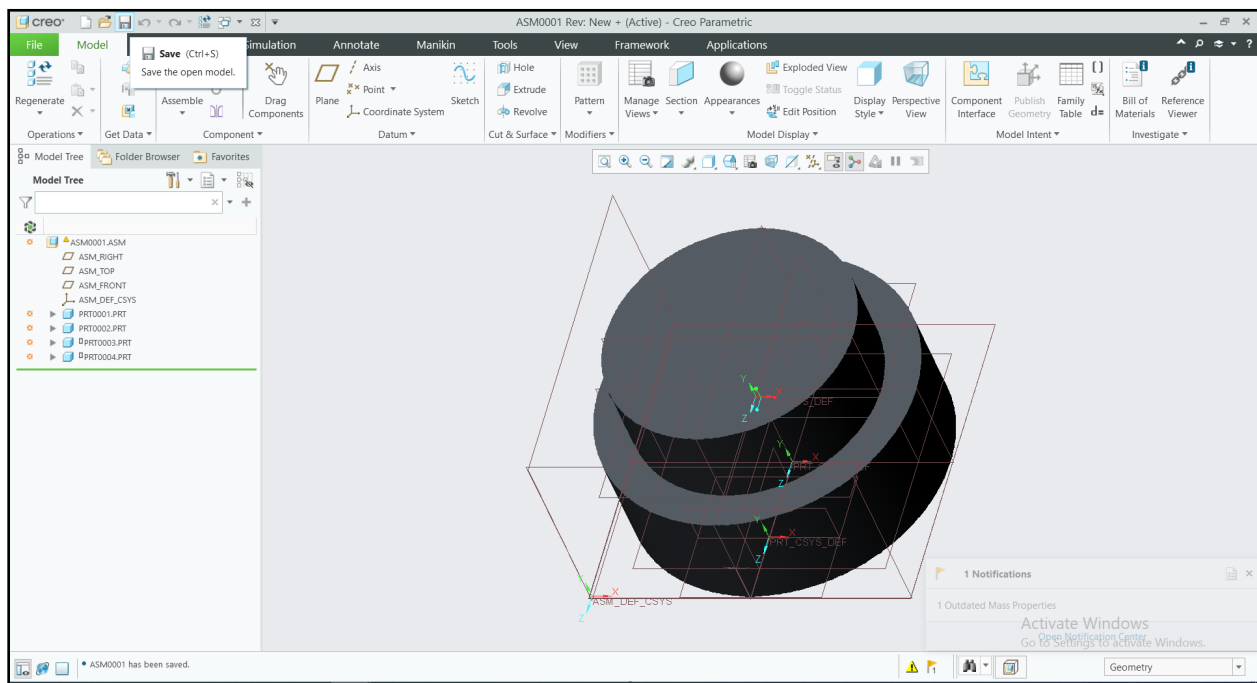

- Then Open the Creo Application and Register the Windchill server and if already registered then check it is activated or not.
- Create new CAD Part or open the designed CAD Part.
- Here we are opening the CAD Part from local storage.

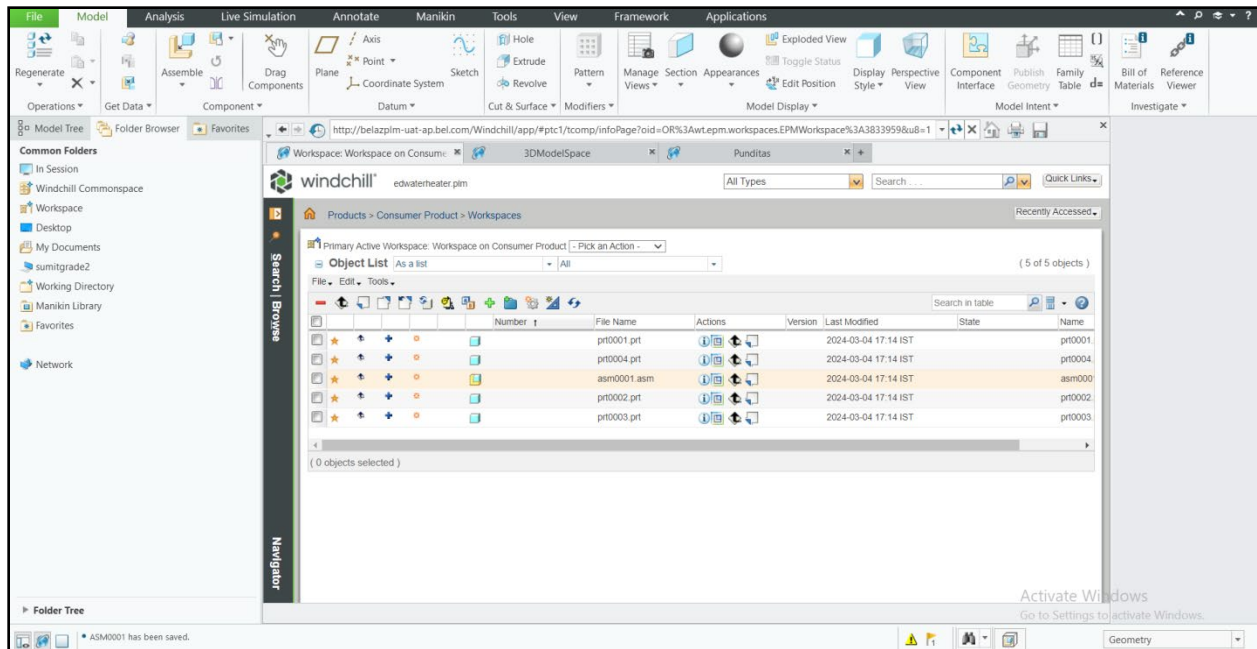

- For testing purpose we are taking 1 simple assembly.

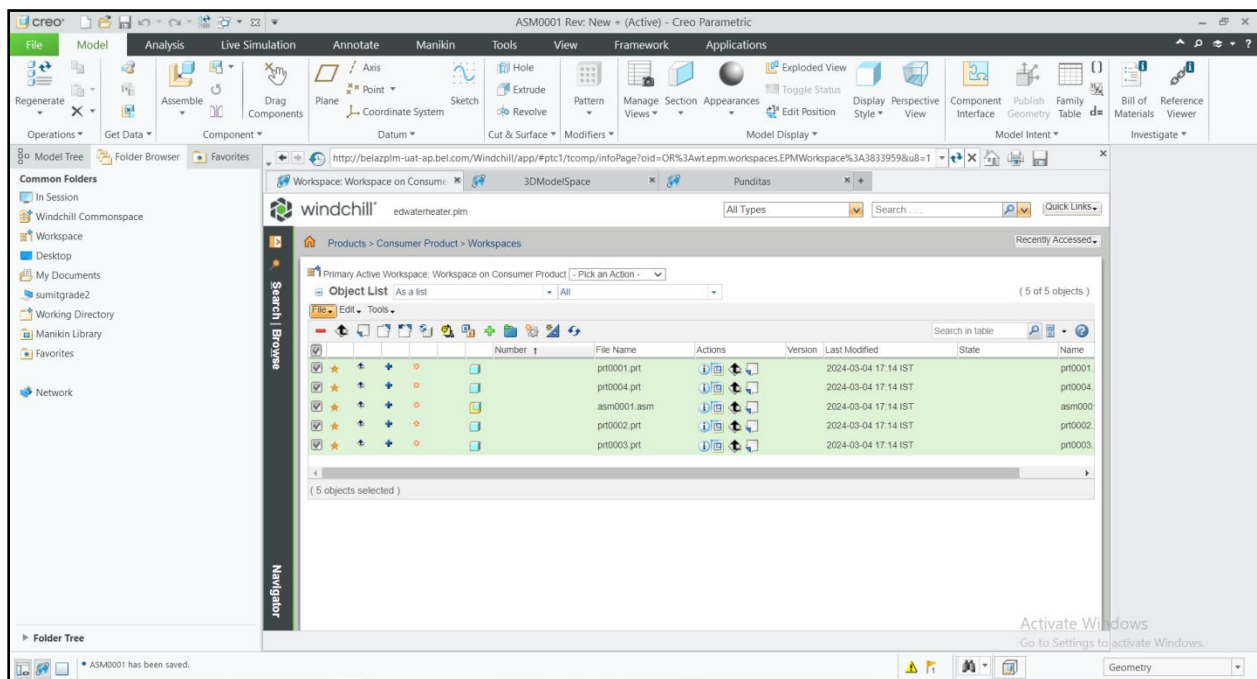

- Once the assembly open and all the modification done then click on Save to save this assembly and dependants parts to workspace.

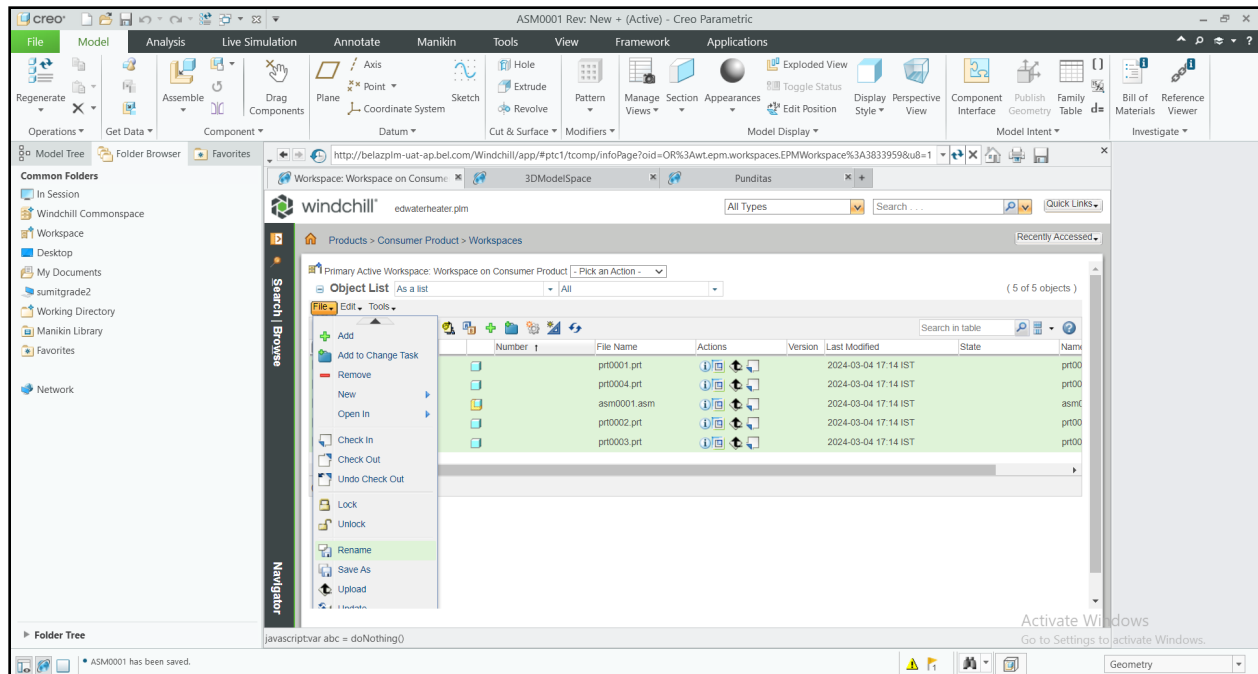

- Go to workspace from Folder Browser > Workspace.
- Assembly and related Parts are saved to workspace.

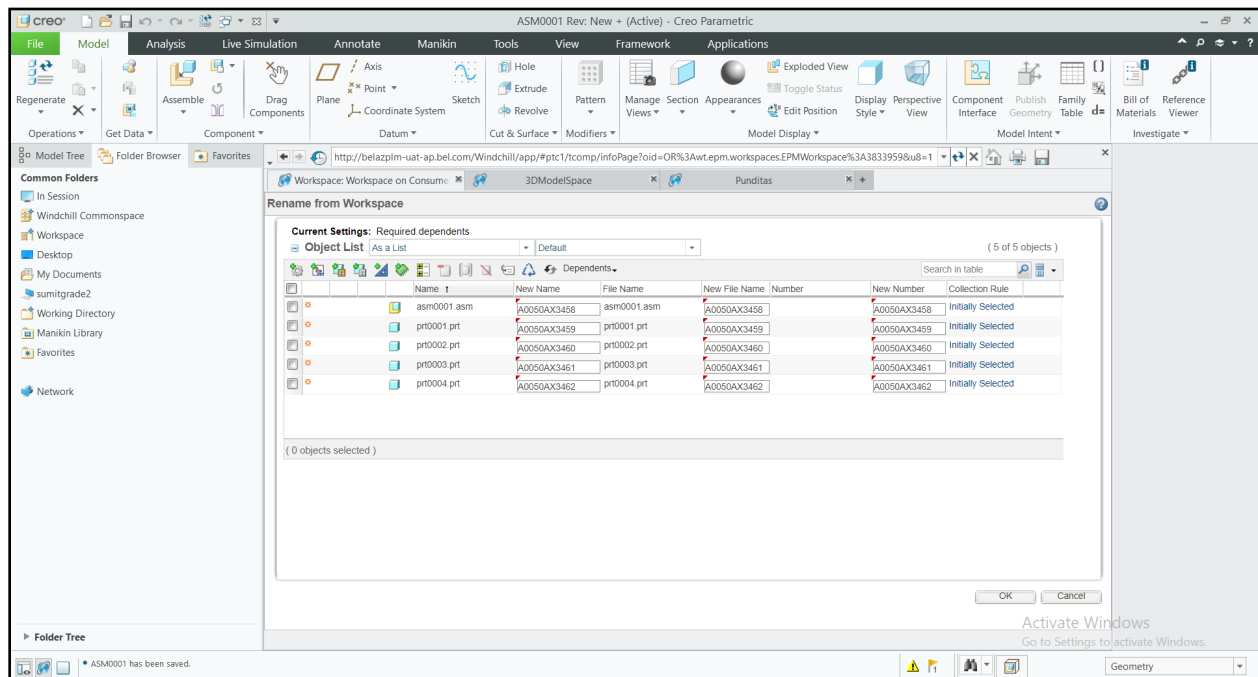

- User need to rename all the legacy part numbers as per the WT parts created in the Windchill.
- To rename go to File > Rename.

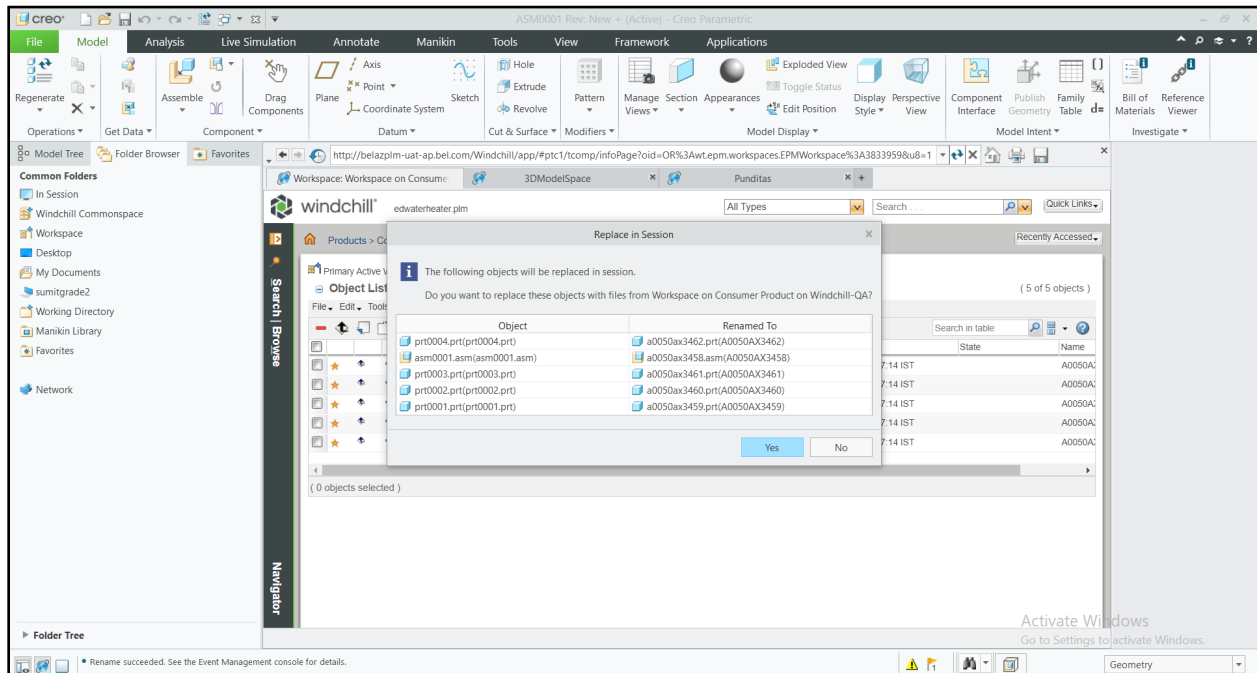

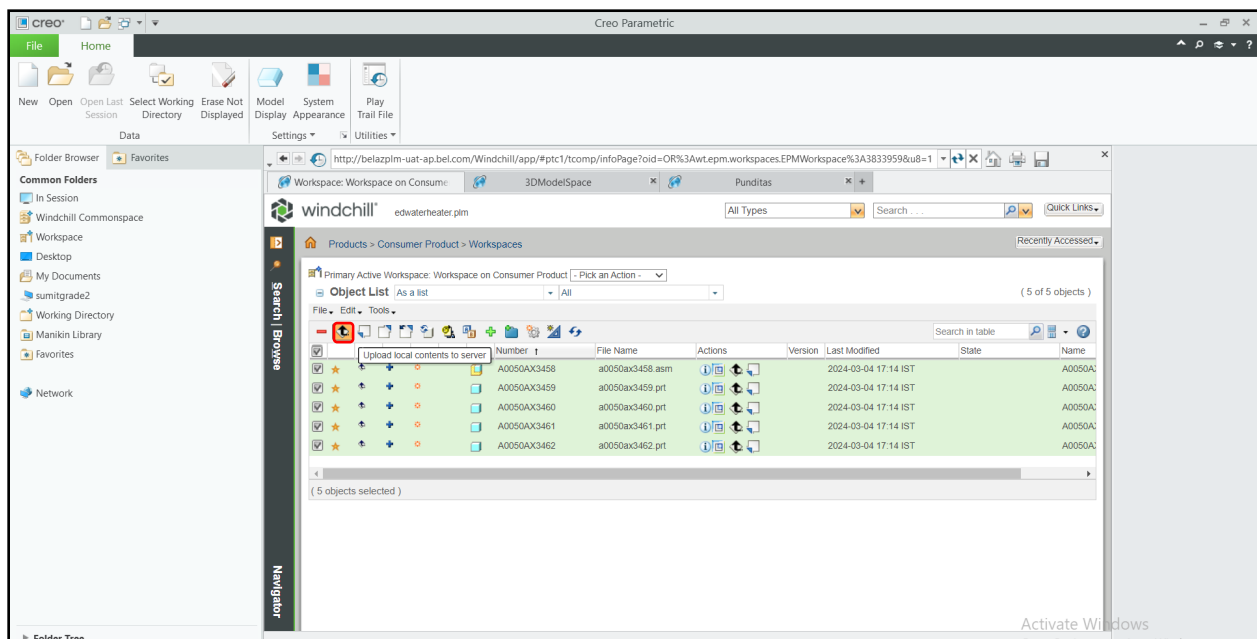

- Give the New Number for all the CAD parts by copying the number from Windchill WT parts created for this CAD Parts.

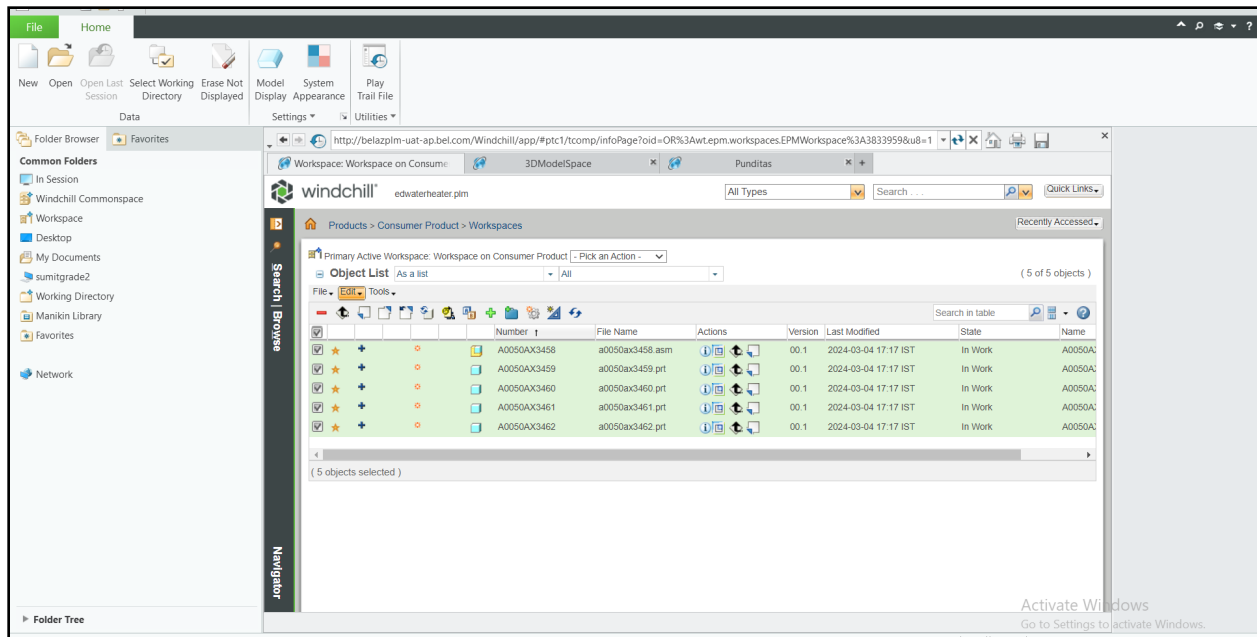

- Once user renames all the parts then confirmed and click on Yes.

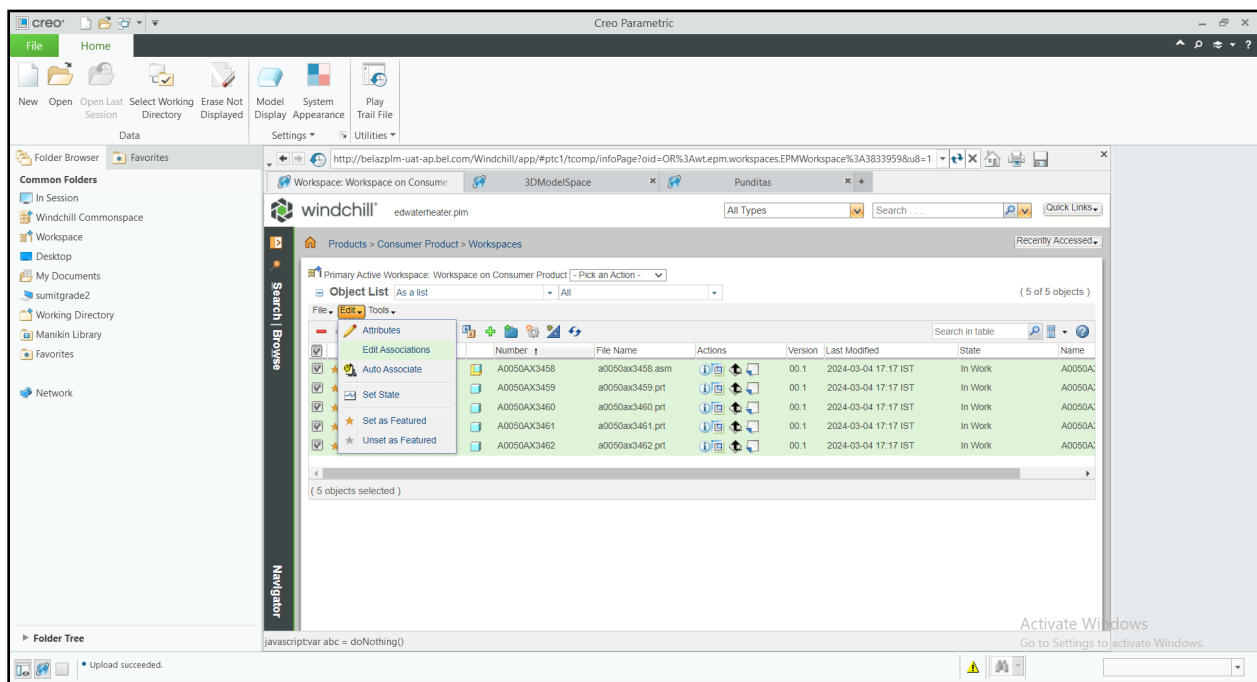

- Then to upload this CAD parts from Creo Server to Windchill Side Server- Select all the parts and click on the Upload icon as shown below.

- After successful upload of all parts, user needs to associate this CAD part with the WT parts.
- To associate select the parts and click on Edit.

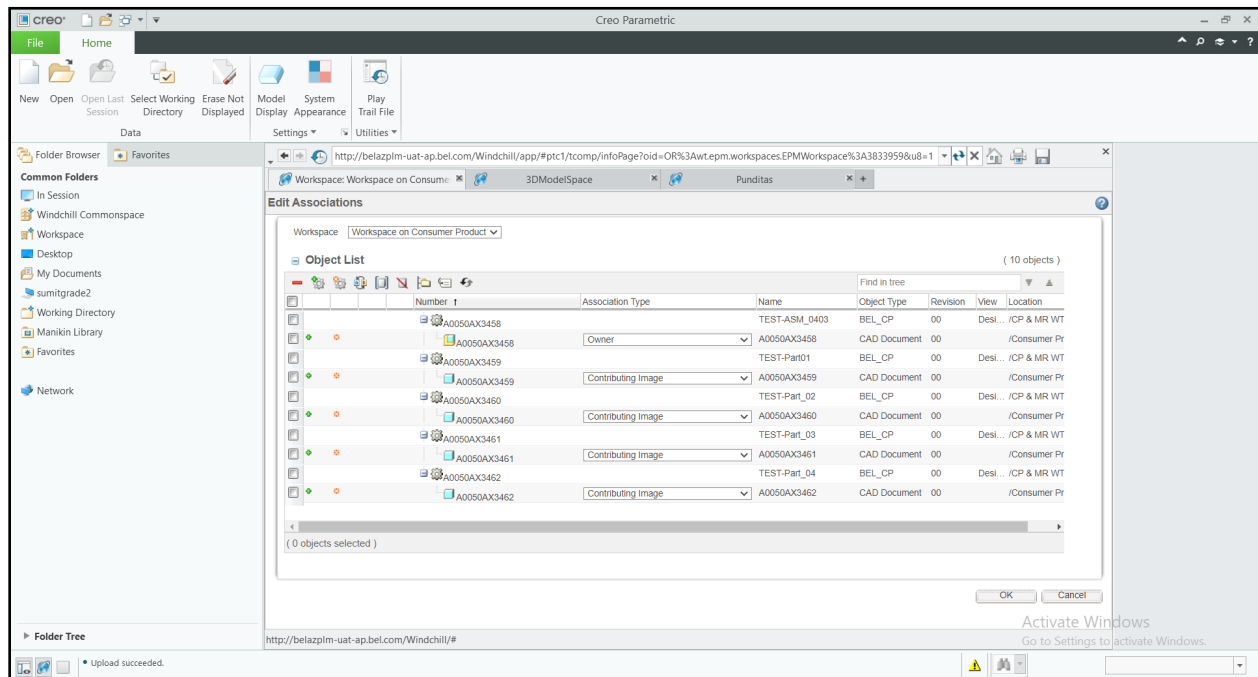

- Then Click on Edit Associations option.

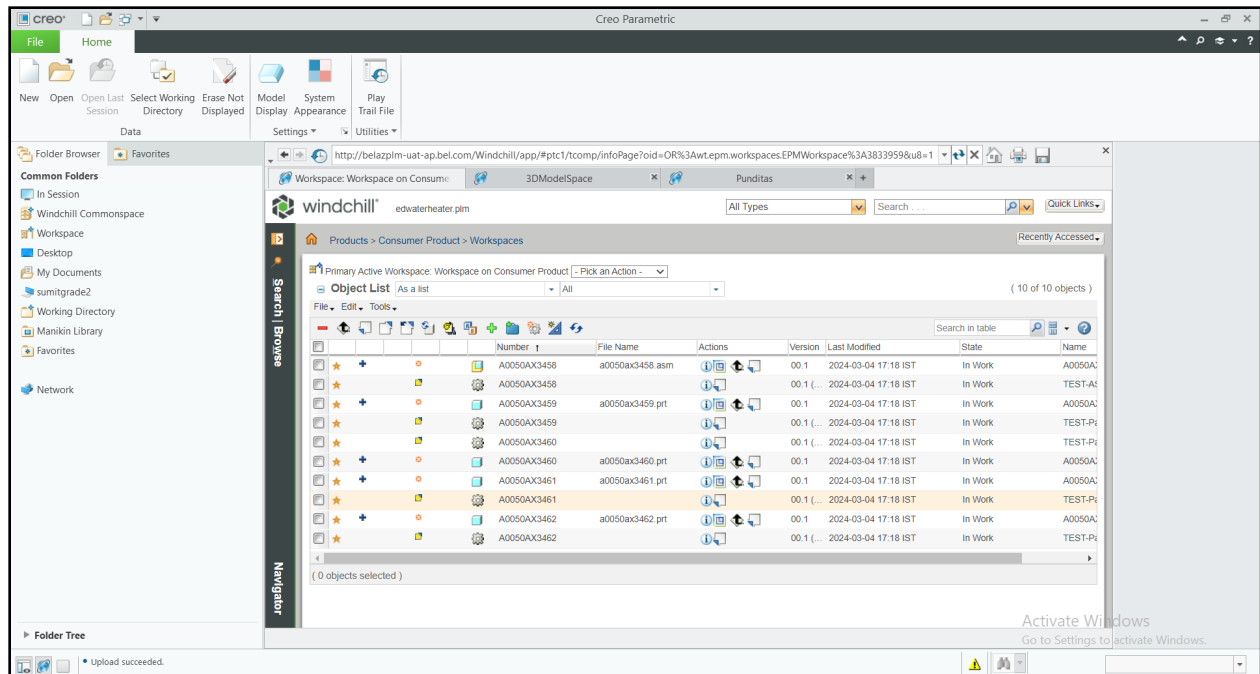

- As we have renamed the entire CAD parts numbers based on the WTParts, so those WTParts we get automatically associated with the respective CAD part as per the Number.

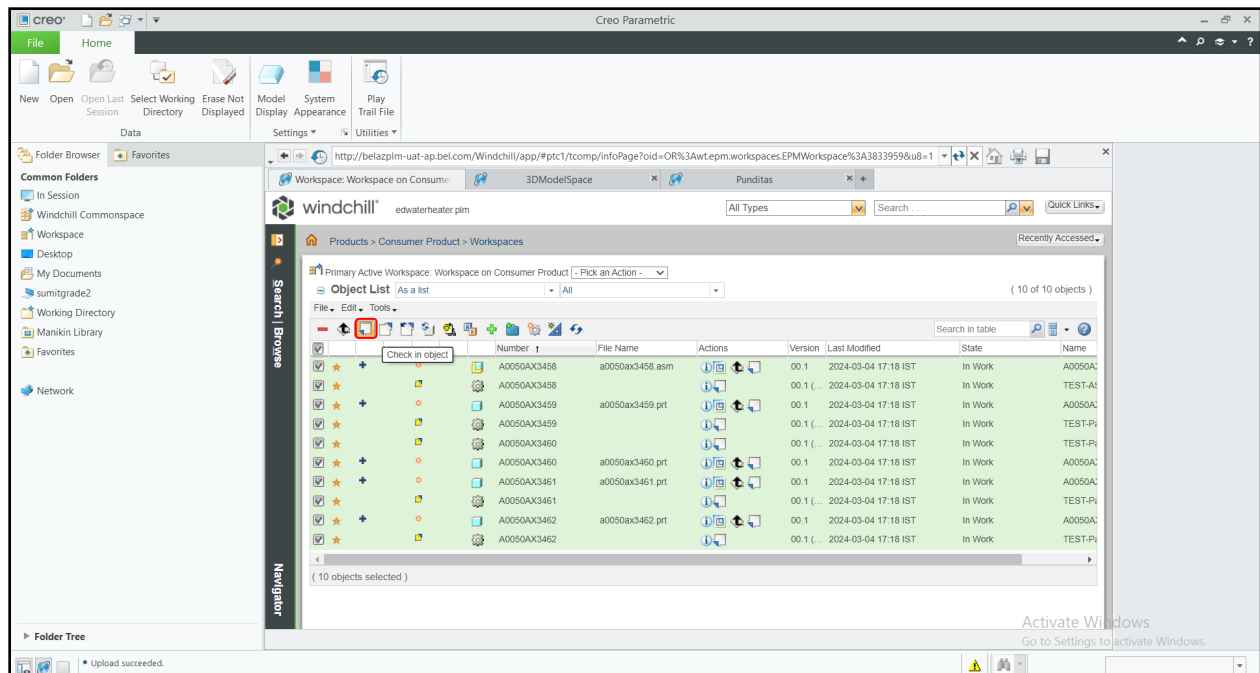

- In this, Assembly will have the Owner association and the other child parts will have the Contributing Image association.
- Note- If any CAD part not have associated WT part in the table please check the number is same and then try again.
- Also if cad part doesn't have any associated WT part then in automatic BOM generation the BOM will not have the WT part in Structure.

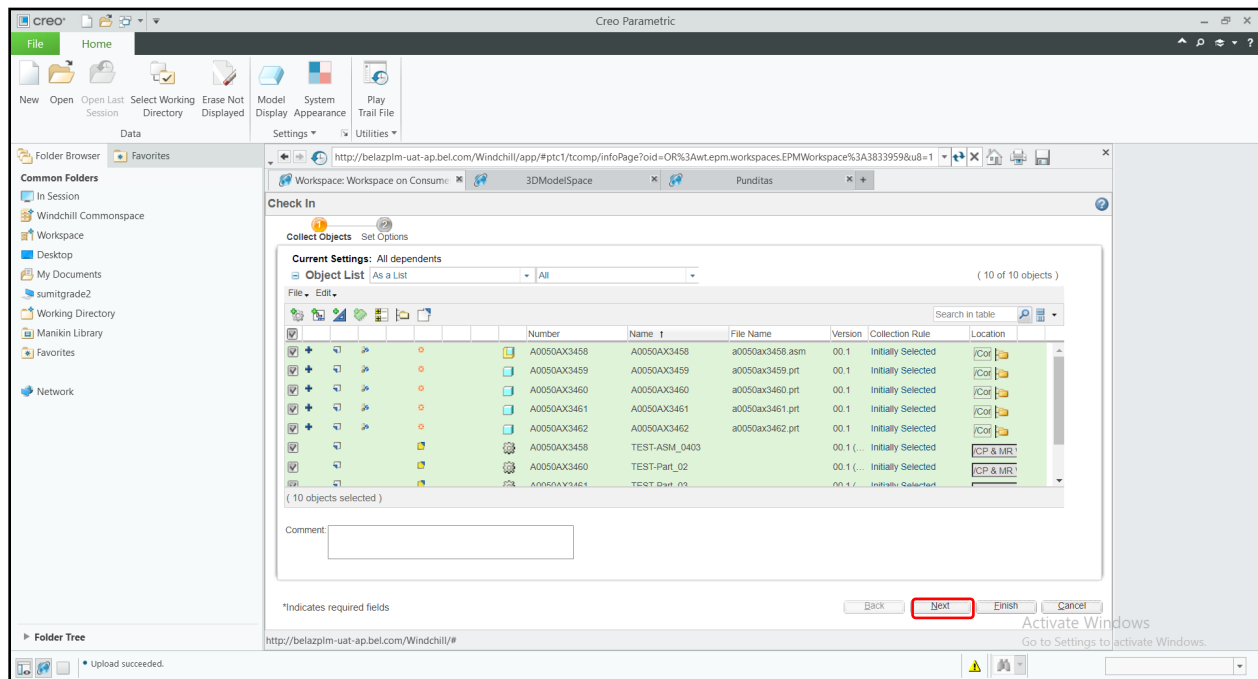

- After successful association all the WT parts will get checked-out.

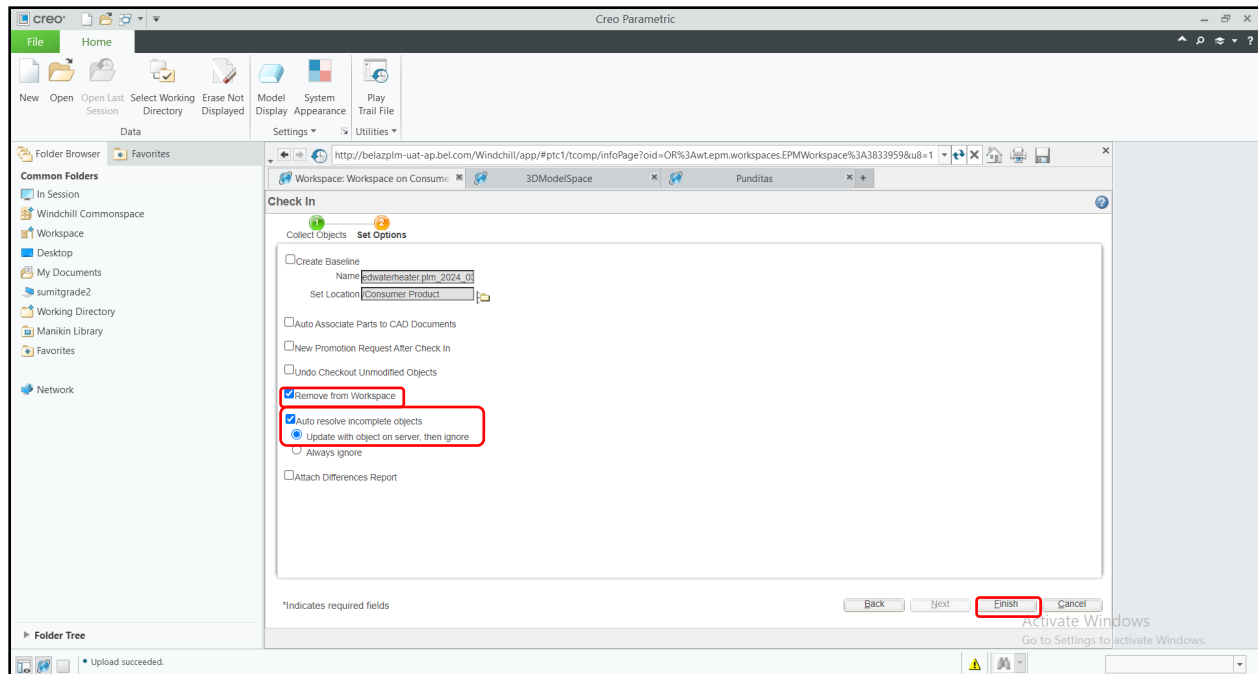

- Check-in all CAD and WT part to windchill to make it available for all the user.

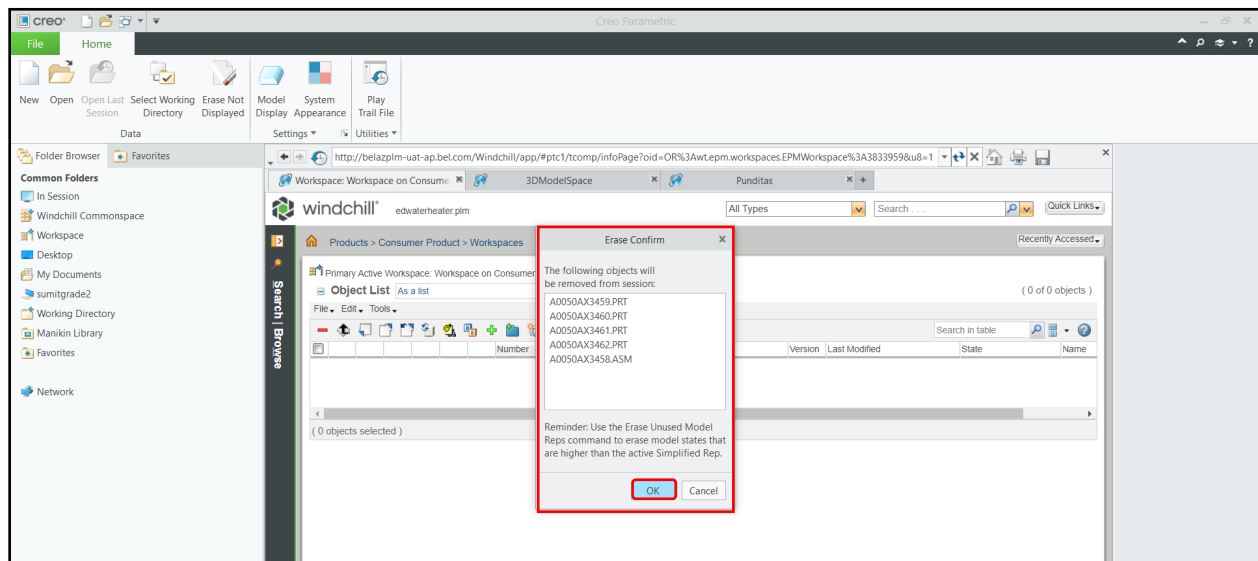

- Below is the Check-in Window in select all the parts and click on next.
- CAD part will get check-in to respective Product Folder in which user has created the workspace.

- In this window select the below check box.
 - Remove from Workspace (will remove all the objects from workspace)
 - Auto resolve incomplete objects > Update with object on server, then ignore. (It will remove any ghost file which has the optional dependants.)
- Then click on Finish.

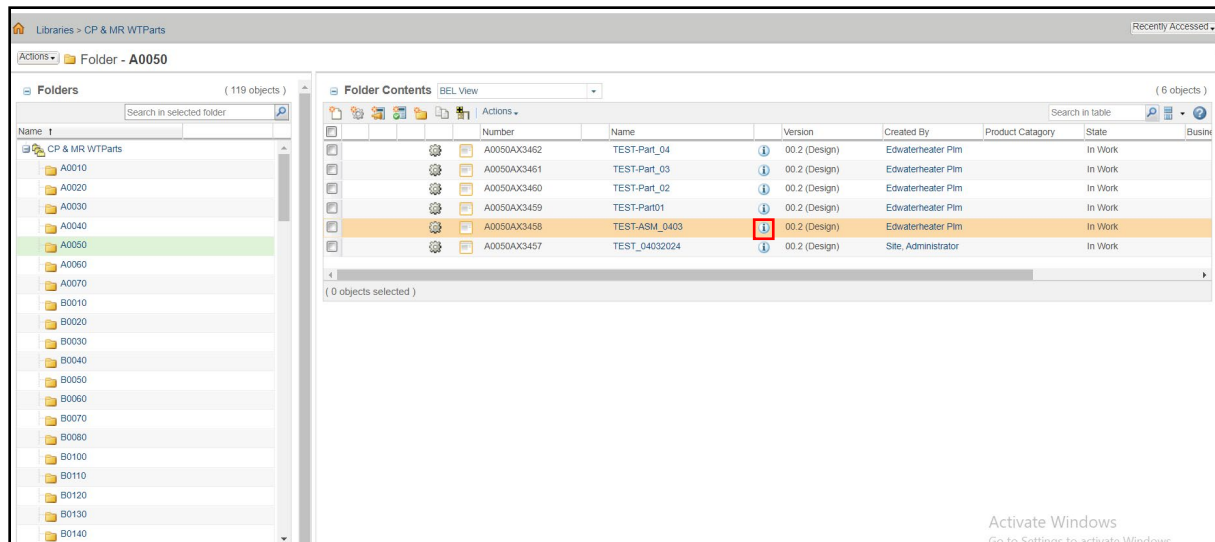

- It will again ask you for the confirmation to remove/erase the objects from workspace then click on Ok.

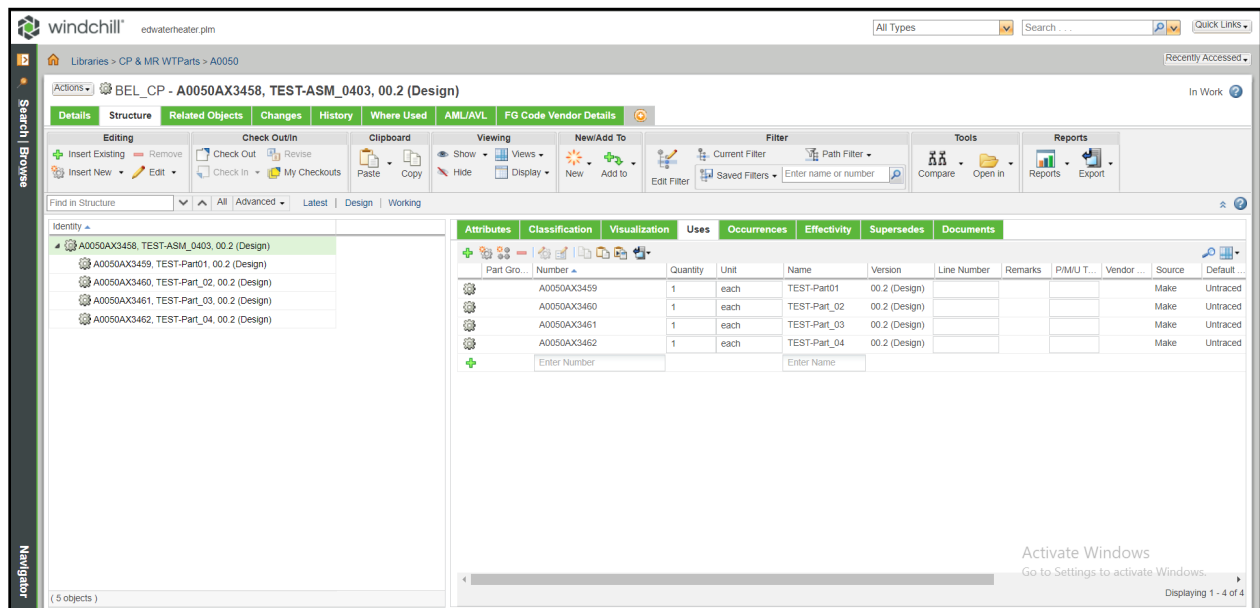

After Check-in automatic BOM generation:-

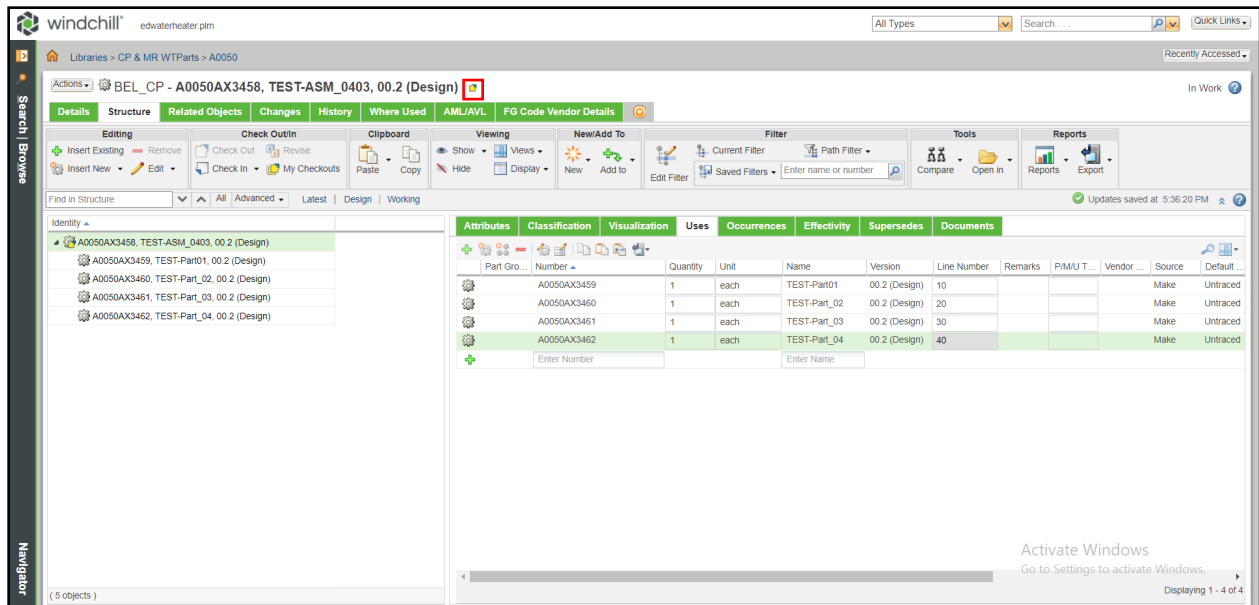

- To check the BOM structure of Assembly in WT parts is generated automatically from check-in the CAD to windchill, user have to search for the Assembly number or go to the folder location and open the WT part Assembly by clicking on view information (i icon) .

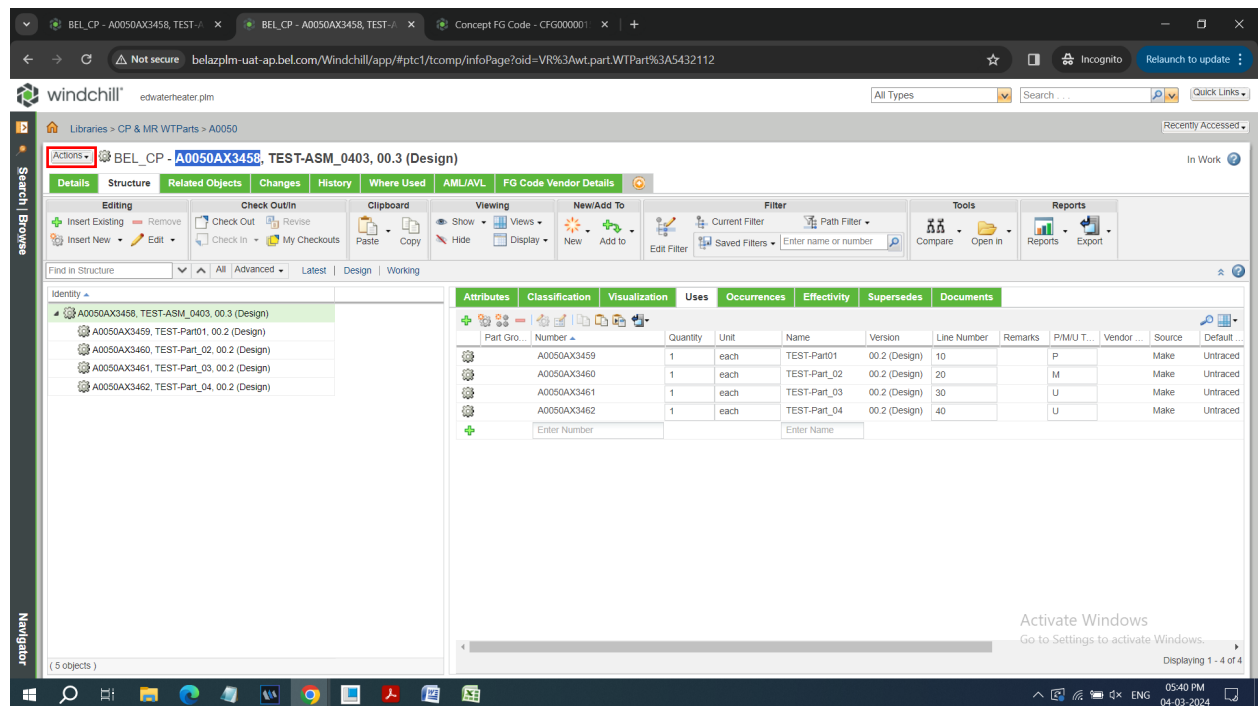

- Then go to the Structure Tab to check the BOM structure as shown below.

- Fill the BOM related information from Uses tab. Ex- Line number, P/M/U type.
- When user fills the information BOM will get check-out as shown below.

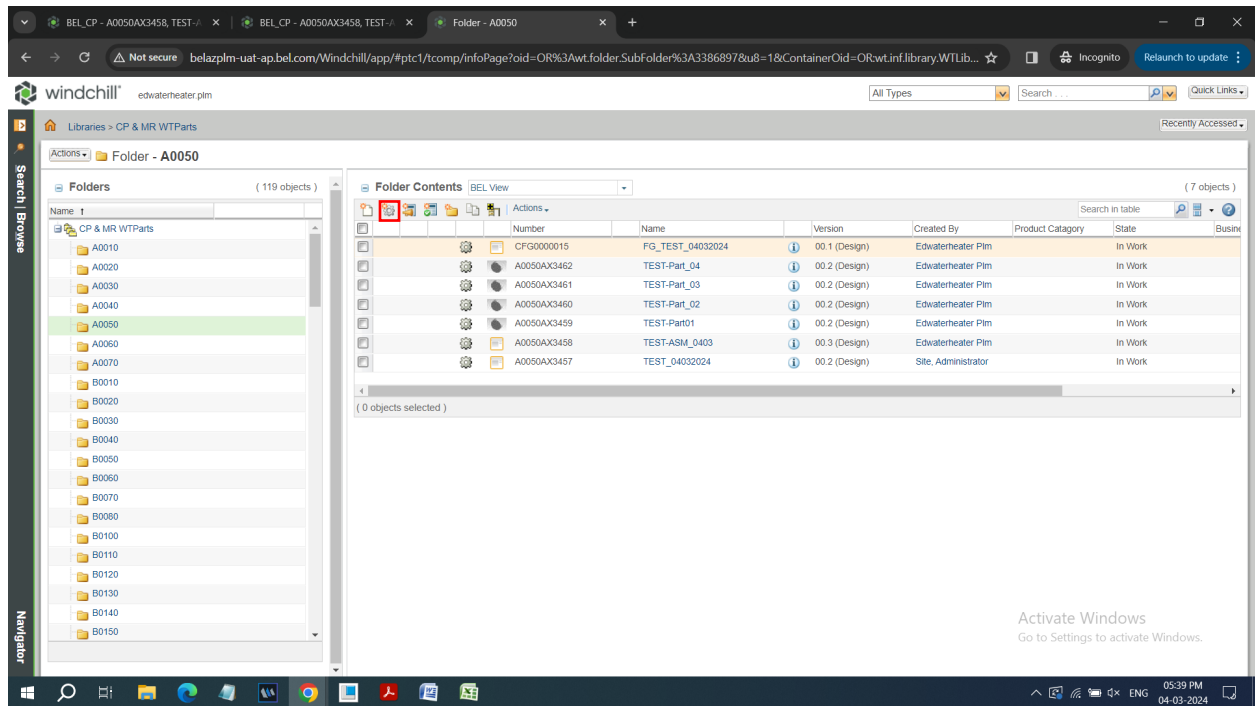

- Then check-in the BOM from check-in option from Action tab.

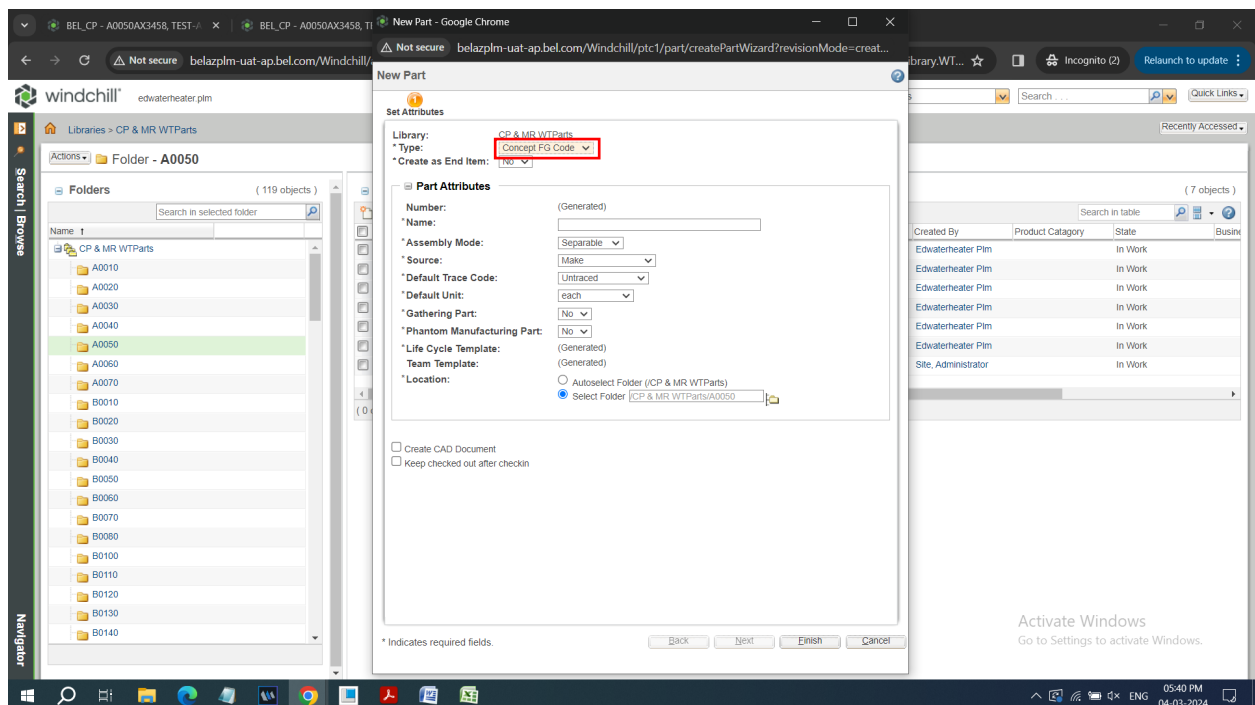

Concept FG part Creation and Add BOM structure:-

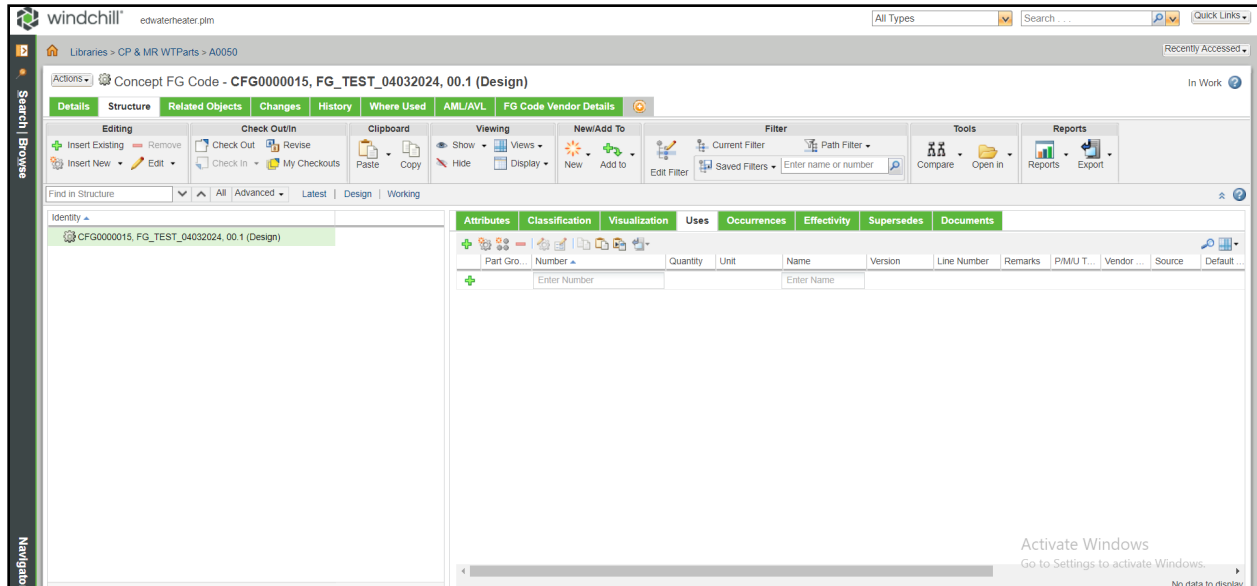

- To create the Concept FG code user have to click on the New Part Icon. 

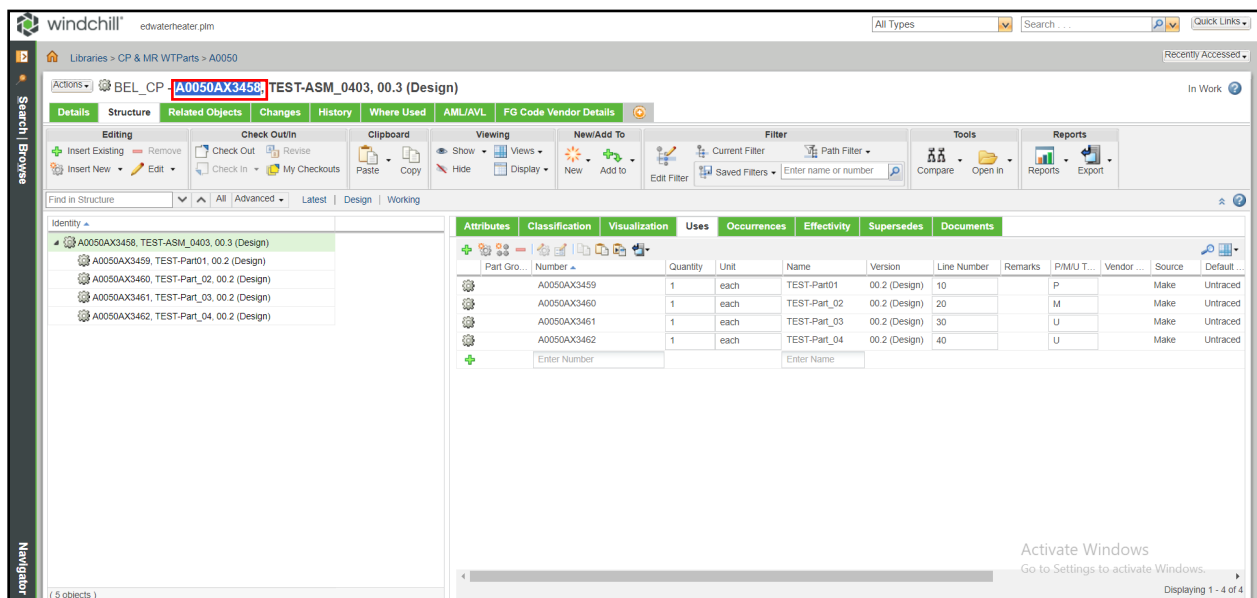

- Select the Type Concept FG Code and fill all required information and click on Finish.

- Concept FG Code will get created as shown below.
- To add the assembly BOM structure below FG code user has to copy the Main assembly number.

- In this case copy main assembly number.

- Paste the assembly number in Enter Number field in Uses tab and select the Assembly it will get added to FG code BOM structure.

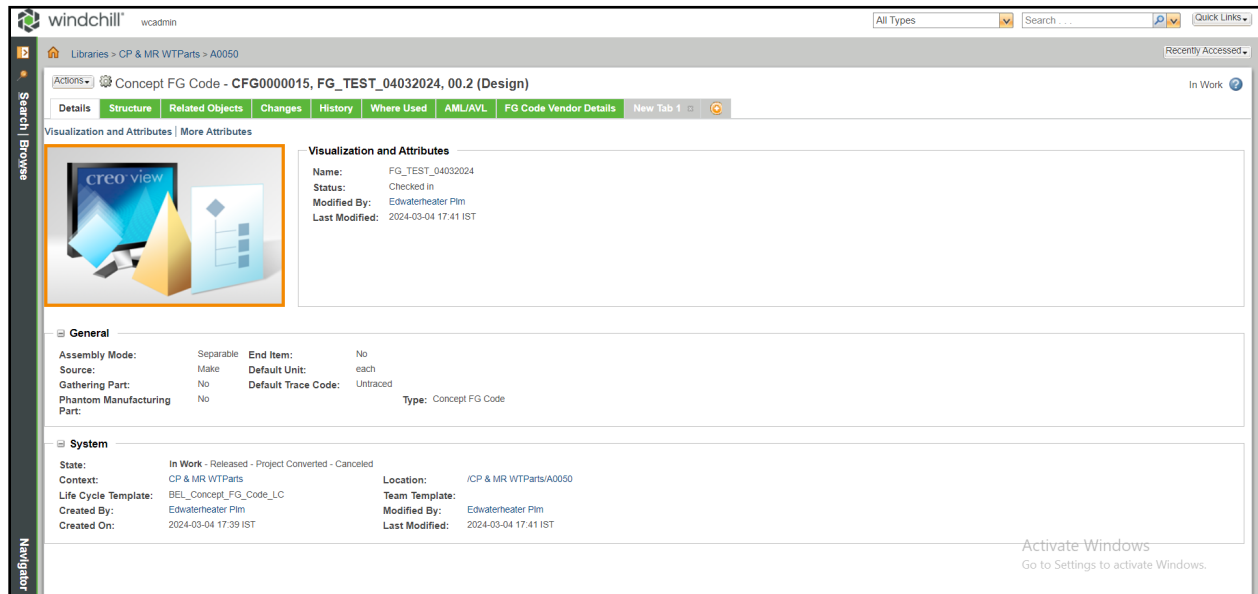

The screenshot shows the Windchill interface for a Concept FG Code - CFG0000015, FG_TEST_04032024, 00.2 (Design). The 'Uses' tab is active, displaying a table with columns: Part Gro., Number, Quantity, Unit, Name, Version, Line Number, Remarks, P/M/J T..., Vendor, Source, and Default. The first row shows 'A0050AX3458' with a quantity of 1 and unit 'each'. Below this row, the 'Enter Number' field is highlighted with a red box, indicating where to paste an assembly number.

- To check all levels user can expand the BOM structure as shown below.
- To expand Go to Display > Expand All Level.

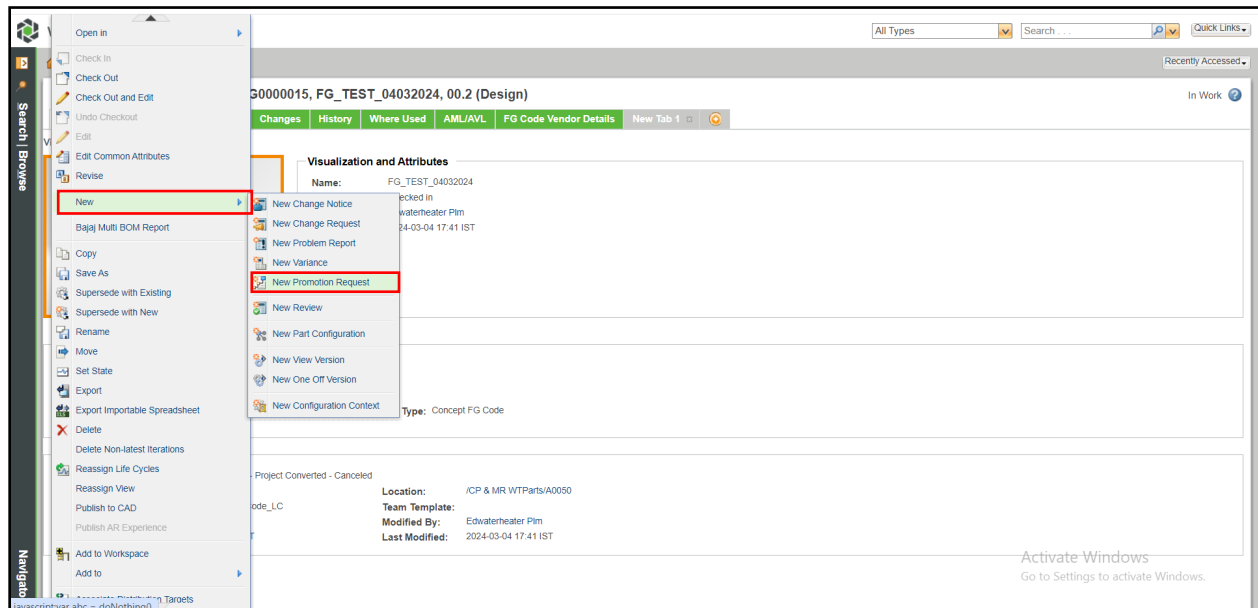

The screenshot shows the same Windchill interface, but the 'Display' button in the 'Viewing' section is highlighted with a red box. The BOM structure is expanded, showing a list of sub-assemblies under the main assembly 'A0050AX3458, TEST-ASM_0403, 00.2 (Design)'. The sub-assemblies include 'A0050AX3459, TEST-Part01, 00.2 (Design)', 'A0050AX3460, TEST-Part_02, 00.2 (Design)', 'A0050AX3461, TEST-Part_03, 00.2 (Design)', and 'A0050AX3462, TEST-Part_04, 00.2 (Design)'.

Promotion Request to Release the Parts :-

- To release the Concept FG code or FG code click on Action tab.

- Then go to New > New Promotion Request.

- New Promotion Request window will open then fill the required attributes and click on next.

- Reviewer will get his Task of Review Promotion Request in his windchill Home Page.

The screenshot shows the Windchill Home Page for a user named cavalerhester.pim. The page has tabs for Tasks, Discussions, and Updates. The My Tasks section is expanded, showing a table with one task. The task is to Review Promotion Request, which is linked to the Promotion Request - 00032.

My Tasks (1 objects)

Name	Subject	Date	Deadline	Assigned	Context	Date
Review Promotion Request	Promotion Request - 00032.FG_TEST_04032024_CFG0000015_...	Under Review	2024-04-17 16:14 IST	2024-03-06 16:14 IST	CP & MR WTParts	Reviewer

(0 objects selected)

My Discussions (0 objects)

Updates (15 objects)

- Reviewer will open the task then add the comment for release the code and complete the task.

The screenshot shows the Windchill interface for a task titled "Task - FG_TEST_04032024, CFG0000015, 00.2, 2024-03-06 1709721842677-Review Promotion Request". The task is currently "Under Review". The "Process Status" section shows two objects: "Review Promotion Request" (Reviewer) and "Approve Promotion Request" (Approver). The "Task History" section is empty. The "Task Completion" section has a "Comments" field with the text "ok" entered. At the bottom right, there are "Save" and "Complete Task" buttons.

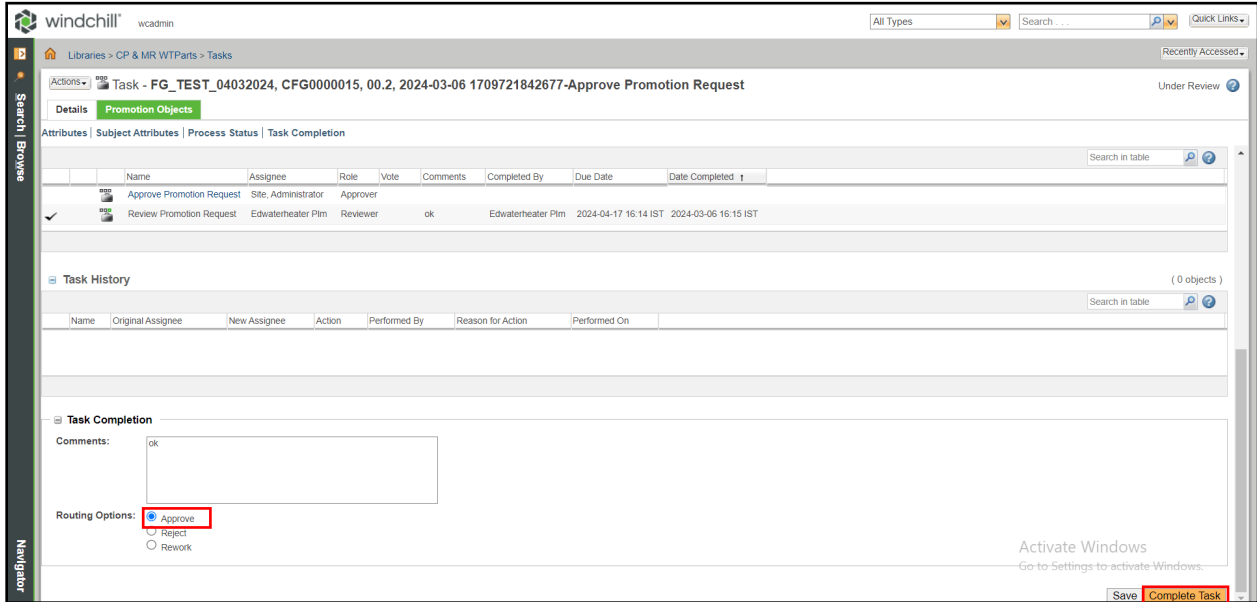

Name	Assignee	Role	Vote	Comments	Completed By	Due Date	Date Completed
Review Promotion Request	Edwaterheater Plm	Reviewer				2024-04-17 16:14 IST	
Approve Promotion Request	Site Administrator	Approver					

- Also approver will get his Approve Promotion Request task in his windchill login Home page.

The screenshot shows the Windchill Home page for user "wadmin". The "My Tasks" section displays a list of tasks. The task "Approve Promotion Request" is highlighted with a red box, showing it is assigned to "wadmin" and is in the "Under Review" state. The "Reports" section shows a list of reports, including "Supplier Management", "Task List", "Planning", and "Default".

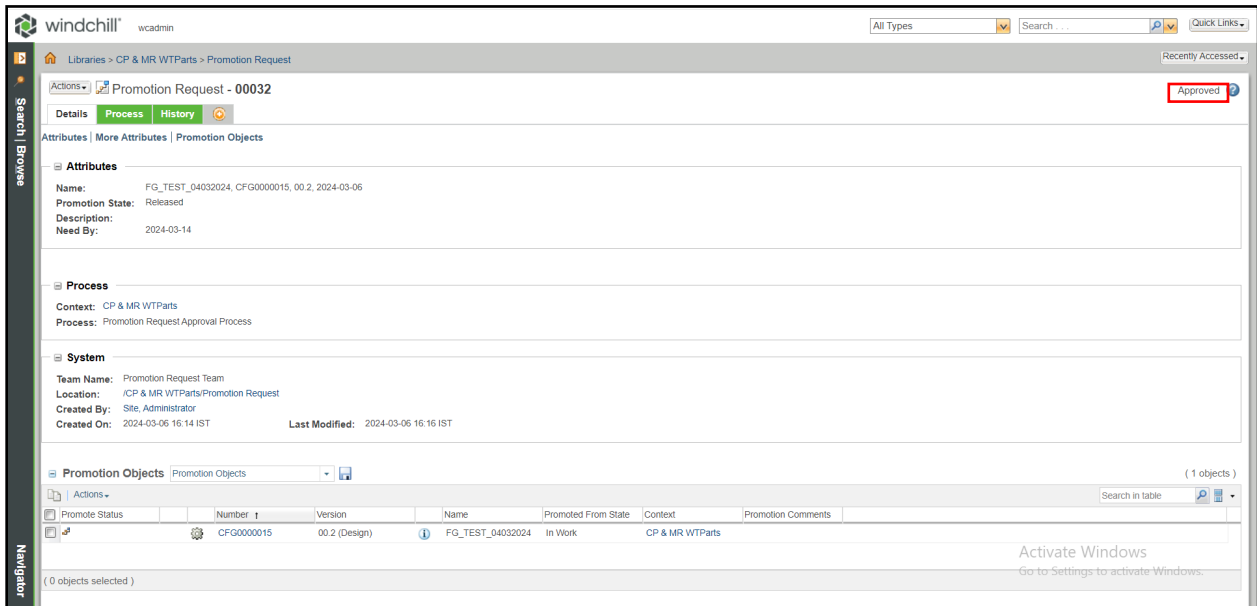

Name	Subject	State	Deadline	Assigned	Context	Role
Approve Promotion Request	Promotion Request - 00032 FG_TEST_04032024, CFG0000015, ...	Under Review	2024-03-06 16:14 IST	wadmin	CP & MR WTParts	Approver
Create New Change Notice	Production ECR - ECR-CP-000116,EPE Sheet thickness change L...	Implementation	2024-03-05 18:03 IST		Consumer Product	LCM Group_CP

Create ECR	Proposal Review Request - PRR-CP-000193.Change of cutout to ...	Under Review	2024-03-05 16:49 IST		Consumer Product	LCM Group_CP

- Approver also opens the task and if he wants to check the code details he can find the code in Promotion Objects tab.
- Then he gives the approve confirmation by giving the comments and selecting the Approve option and then Complete the Task.

The screenshot shows the Windchill interface for a task titled "Task - FG_TEST_04032024, CFG0000015, 00.2, 2024-03-06 1709721842677-Approve Promotion Request". The task is currently in the "Under Review" state. The "Promotion Objects" tab is selected, showing a table with columns: Name, Assignee, Role, Vote, Comments, Completed By, Due Date, and Date Completed. The table contains one row: "Approve Promotion Request" by Site Administrator (Approver) with a vote of "ok" and completed by Edwaterheater Ptm on 2024-04-17 16:14 IST. Below the table is the "Task History" section, which is currently empty. The "Task Completion" section shows a "Comments" field with the text "ok" and "Routing Options" with radio buttons for "Approve" (selected), "Reject", and "Rework". At the bottom right, there are buttons for "Save" and "Complete Task".

- Promotion Request state changes to Approve after completing both the task.

The screenshot shows the Windchill interface for a promotion request titled "Promotion Request - 00032". The request is now in the "Approved" state. The "Process" tab is selected, showing the "Promotion Request Approval Process". The "Attributes" section displays the following information: Name: FG_TEST_04032024, CFG0000015, 00.2, 2024-03-06; Promotion State: Released; Description: 2024-03-14; Need By: 2024-03-14. The "System" section shows: Team Name: Promotion Request Team; Location: JCP & MR WTParts/Promotion Request; Created By: Site Administrator; Created On: 2024-03-06 16:14 IST; Last Modified: 2024-03-06 16:16 IST. The "Promotion Objects" section shows a table with columns: Promote Status, Number, Version, Name, Promoted From State, Context, and Promotion Comments. The table contains one row: "Promote Status" is "In Work", "Number" is "CFG0000015", "Version" is "00.2 (Design)", "Name" is "FG_TEST_04032024", "Promoted From State" is "In Work", and "Context" is "CP & MR WTParts". At the bottom right, there are buttons for "Save" and "Complete Task".

- And Concept FG Code also gets Released.

☐	A0050AX3462	00.2 (Design)	TEST-Part_04	In Work	CP & MR WTParts	

The 'Promotion Objects' section shows 5 objects selected.

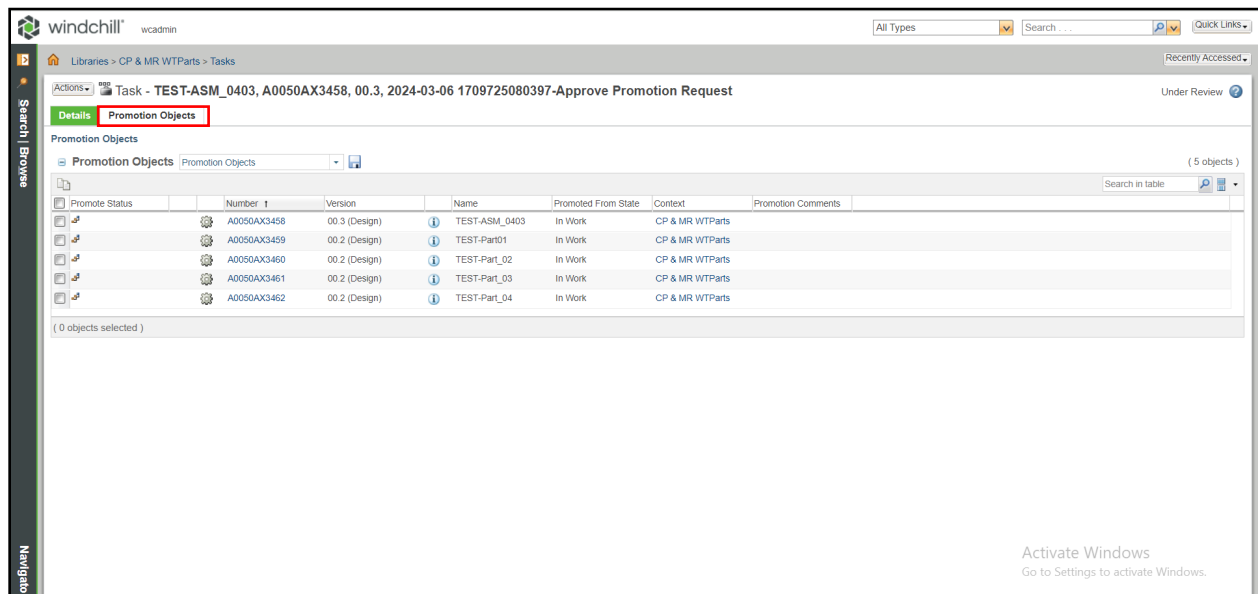

- Reviewer will open the task then add the comment for release the code and complete the task.

The screenshot shows the Windchill interface for a specific task. The task title is "Task - TEST-ASM_0403, A0050AX3458, 00.3, 2024-03-06 1709725080397-Review Promotion Request". The task is currently "Under Review". The "Process Status" section shows two objects: "Review Promotion Request" (Assignee: Edwaterheater Plm, Role: Reviewer) and "Approve Promotion Request" (Assignee: Site, Administrator, Role: Approver). The "Task History" section is empty. The "Task Completion" section has a comment field with the text "ok". At the bottom right, there are "Save" and "Complete Task" buttons.

- Also approver will get his Approve Promotion Request task in his windchill login Home page.

The screenshot shows the Windchill "My Tasks" view for user "wadmin". The "My Tasks" section displays a list of tasks. The first task, "Approve Promotion Request", is highlighted with a red box. This task is assigned to "wadmin" (Role: Approver) and is in the "Under Review" state. The task is related to "Promotion Request - 00033, TEST-ASM_0403, A0050AX3458, 00...". The "Deadline" is "2024-03-06 17:08 IST". The "Context" is "CP & MR WTParts". The "Role" is "Approver". Below the "My Tasks" section, there is a "Reports" section with a list of reports: "Supplier Management", "Task List", "Planning", and "Default".

- In promotion objects tab Approver can find all the requested parts for released or promotion.

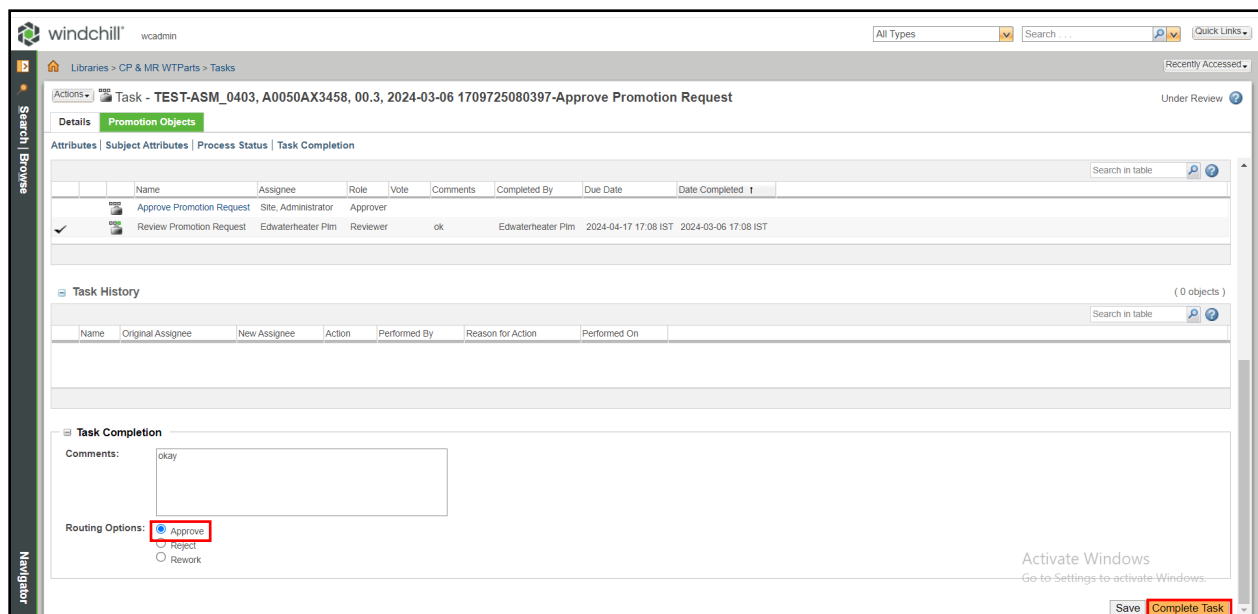

The screenshot shows the Windchill interface for a task titled "Task - TEST-ASM_0403, A0050AX3458, 00.3, 2024-03-06 1709725080397-Approve Promotion Request". The "Promotion Objects" tab is selected, displaying a table with 5 objects. The table columns are: Promote Status, Number, Version, Name, Promoted From State, Context, and Promotion Comments.

Promote Status	Number	Version	Name	Promoted From State	Context	Promotion Comments
	A0050AX3458	00.3 (Design)	TEST-ASM_0403	In Work	CP & MR WTParts	
	A0050AX3459	00.2 (Design)	TEST-Part01	In Work	CP & MR WTParts	
	A0050AX3460	00.2 (Design)	TEST-Part_02	In Work	CP & MR WTParts	
	A0050AX3461	00.2 (Design)	TEST-Part_03	In Work	CP & MR WTParts	
	A0050AX3462	00.2 (Design)	TEST-Part_04	In Work	CP & MR WTParts

- Then he gives the approve confirmation by giving the comments and selecting the Approve option and then Complete the Task.

The screenshot shows the Windchill interface for the same task, now in the "Task Completion" tab. The "Comments" field contains the text "okay". The "Routing Options" section shows the "Approve" radio button selected. The "Complete Task" button is highlighted in red.

Comments: okay

Routing Options: ☒ Approve ☐ Reject ☐ Rework

Save Complete Task

- Once the Approver and Reviewer complete their task, promotion request state changes to Approve.

The screenshot shows the Windchill interface for a Promotion Request - 00033. The status is 'Approved', highlighted in a red box. The interface includes sections for Members, Routing/Process History, and Process Status.

Members (6 objects):

Roles/Members	Status	Description	Phone
Approver			
Site Administrator			
Owner			
Site Administrator			
Reviewer			
Edwaterheater Plm			

Routing/Process History (1 objects):

Name	Version	Status	Initiated By	Date Started	Date Completed
TEST-ASM_0403, A0050AX3458, 00.3, 2024-03-06 17:09:25...		Executed	Site Administrator	2024-03-06 17:08	2024-03-06 17:10 IST

Process Status (2 objects):

Name	Assignee	Role	Vote	Comments	Completed By	Due Date	Date Completed
Review Promotion Request	Edwaterheater Plm	Reviewer	ok		Edwaterheater Plm	2024-04-17 17:08 IST	2024-03-06 17:08 IST

- Then all the Parts we have selected for promotion request also get Released to Production state.

The screenshot shows the Windchill interface for a Part Structure. The status is 'Released to Production', highlighted in a red box. The interface includes sections for Details, Structure, Related Objects, Changes, History, Where Used, AML/AVL, FG Code, and Vendor Details.

Structure (4 objects):

Object Type	Line No.	Change	Number	Name	Quantity	Unit	Version	View	State
BEL_CP	10		A0050AX3458	TEST-ASM_0403	1	each	00.3 (Design)	Design	Released to Production
BEL_CP	20		A0050AX3459	TEST-Part01	1	each	00.2 (Design)	Design	Released to Production
BEL_CP	30		A0050AX3460	TEST-Part_02	1	each	00.2 (Design)	Design	Released to Production
BEL_CP	40		A0050AX3461	TEST-Part_03	1	each	00.2 (Design)	Design	Released to Production
BEL_CP			A0050AX3462	TEST-Part_04	1	each	00.2 (Design)	Design	Released to Production

Attributes (4 objects):

Part Gro.	Number	Quantity	Unit	Name	Version	Line N
	A0050AX3459	1	each	TEST-Part01	00.2 (Design)	10
	A0050AX3460	1	each	TEST-Part_02	00.2 (Design)	20
